Cumberland County—Dr. L. W. Frazier for Camp Hill borough.

MORGENTHAU FEARS GERMANY'S STRENGTH

Says Opinion Is Strong That League of Nations Is the Only Means to Prevent Disaster; Hun Border States Weak

Paris, Sept. 20.—Germany came through this war a perfect dynamo of strength. Her human military power is practically as great as ever and her 65,000,000 people have been schooled and hardened by trials. They have learned economy and self-denial.

"The nation has been compressed into a concentrated mass, which is surcharged with energy and moving with centripetal force, while Germany's neighbors are spreading themselves out thin, and quarreling and moving with centrifugal force."

Thus spoke Henry Morgenthau, who headed the United States investigation commission which has been at work in Poland, in discussing to-day his observations in Central Europe.

"What will be the result?" Mr. Morgenthau asked. Replying to his own question, he continued: "If disintegration keeps up among Germany's neighbors, there can be but one result. I doubt whether Germany fully appreciates her own strength. As she sits, calmly watching the dickerling going on between the new states, which are losing sight of great principles and fighting over little strips of territory, she must take grim satisfaction in the battle her enemies are waging in her behalf."

And a Germany, encouraged by such discord among weak and struggling states, undoubtedly will resort to arms within a few years and regain her lost territory.

"What will prevent military clique from regaining control in Germany if Europe continues to offer such tempting prizes to various nationalities? Such a situation will not encourage Germany to regain her lost territory by peaceful means and to pay indemnities."

"What is to encourage the democrats in Germany who are trying to get away from militarism? Europe rapidly is driving on toward a situation which eventually must result in a coalition between Russia and Germany and the absolute destruction of many of the newly-created powers unless steps be taken to prevent it."

League Only Remedy "Opinion is strong that the League of Nations is the only means for preventing such a disaster. And it must come soon and have the loyal support of both great and small powers. Greece, Italy, Jugoslavia, Czechoslovakia, Poland and other

European countries which have been fought over and are in a sadly weakened condition, need the support of some organization which will afford them the proper tribunal for their disputes and assist them in maintaining their stability away from the idea that war is the only means of getting justice.

"It is impossible to create barrier states against Bolshevism and militarism, and therefore, the only way to prevent their quarrels and weaken themselves they cannot resist any enemy, much less a great untouchable power like Germany."

"Germany intelligently refused to fight to a finish with the United States. She withdrew in good order to all places of safety, where the war had not ruined her factories and where everything was ready for the resumption of the peace industry."

"The forces of peace must organize and coordinate; otherwise they are inviting an onslaught which German arms unquestionably will make within a few years unless Germany's enemies entrench themselves through constructive work and establish the nations which threaten to weaken themselves and the Allies through greed and jealousy."

Strong Poland Necessary "Germany has gone over into Russia. Her people are organizing there and they will marshal Russian resources and utilize them for combatting the rest of the world unless a strong Poland is created as a protection for Europe.

Middletown Mrs. Sarah Peters, Aged 82 Years, Dies

Mrs. Sarah Peters, aged 82 years, died at the home of her daughter, Mrs. H. A. McKee, Ann street, Thursday night from the results of a stroke from which she had never regained consciousness.

A plate without a roof which does not interfere with taste or speech. \$5 ROOFLETS PLATE. Plates Repaired While You Wait. MACK'S DENTAL OFFICES. 210 MARKET STREET.

State Road Work Is Awarded Today

Award of contracts for construction of State highway sections in Adams, Butler, Clarion, Tioga, Indiana and Warren counties and re-jection of bids for work in McKean, Potter and Snyder counties were announced by Highway Commissioner Sadler to-day.

The awards were: Adams County, Gettysburg Borough, 7,857 feet of construction; W. P. McDonald Construction Co., Philadelphia—\$109,769.40.

Butler County, Slippery Rock Township, 14,044 feet of reinforced concrete construction.

Clarion County, Clarion Township, extending eastwardly from Strattonville Borough and from the west line of Strattonville to the east line of Clarion Borough—16,417 feet of reinforced concrete.

L. H. Hileman Construction Co., New Kensington, Pa.—\$164,870.50.

Indiana County, Blairsville Borough, 3,812 feet of reinforced concrete.

M. Bennett & Sons, Indiana, Pa.—\$54,138.80.

Tioga County, Lawrence Township and Lawrenceville Borough, 24,113 feet of construction.

Adams, Evans & Co., Church St., New York, N. Y.—\$21,246.91.

The projects rejected follow: McKean County, Bradford Township and Lewis Run Borough, 31,265 feet of construction.

Potter County, Roulette Township, 8,020 feet of construction.

Potter County, Roulette Township, 7,915 feet of construction and Snyder County, Union and Chapman Townships, Section 12, 32,320 feet of construction.

The contract to build about 7,936 feet of reinforced concrete roadway on State Highway Route 213, Warren County, was awarded to the firm of Ridelberger & Savage, of Warren, at \$60,539.90. Route 253 connects Tredah and Southport and the section to be rebuilt extends out from the village of Barnes.

Demand Queenstown Be Retained as Port For the Big Liners

Dublin, Sept. 20.—There are numerous protests in the Irish press against the abandonment of Queenstown as a port of call for great American liners. In future only the small vessels will call there and it is pointed out that this means that the profitable tourist traffic from America will be taken direct to England.

ANNOUNCE SON'S BIRTH.

New Cumberland, Pa., Sept. 30.—Mr. and Mrs. John P. Conley of Geary street, announce the birth of a son.

WHO HAS PICTURE OF OUR LARGEST TREES?

Washington—Who has pictures of our largest trees? The American Forestry Association of Washington, D. C., wants it. The association also wants pictures of trees with a history connected with them and a short account of why the tree is famous. The largest nut-bearing tree in the United States is a valley oak on the ranch of E. F. Garver, San Benito county, Calif. It is thirty-seven feet six inches in circumference, and it is claimed it produces a ton of acorns every year. Many have said the Hooker oak, of Chico, Calif., was the largest, but this tree is twenty-one feet eight inches in circumference. The largest tree in the non-nut-bearing class of hardwoods is a sycamore near Worthington, Ind., and the sycamore is the largest hardwood tree in North America.

MUNICIPAL FISH MARKET AT PORTLAND ABOLISHED

Portland, Ore.—Portland's municipal fish market, where the public, during the war, purchased all kinds of fish at prices somewhat below those charged by other markets, was abolished by the City Council. The city shouldered a financial loss of \$3,000. Members of the council pointed out that the market was not intended to be permanent but was an emergency war measure. They asserted that by keeping down the price of fish and preventing profiteering Portland's citizens were saved several thousand dollars a month during the war.

COW ESCAPES WITH LADDER

A painter at work on a water tank at Buhl, Minn., foresaw a catastrophe when a cow began to scratch her back on the bottom of his ladder, and started to come down. That frightened the cow and she ran her horns through the lower rungs of the ladder and started off in a gallop, carrying the ladder, painter, paint and the tank. The ladder yelped the faster the cow trailed. It was but a short ride for

Doutrichs Always Reliable

304 Market Street Harrisburg, Pa.

September For Pea Coal

COAL consumers who put in their Pea Coal during the present month will benefit by getting a better grade of fuel and at prices lower than any other month during the fall and winter.

IT is our firm conviction that Pea Coal prices are due for an advance in October — or just as soon as real cold weather comes to stay.

IN recent years it has been customary to increase the price of Pea Coal at the same time and for the same amount as Egg, Stove and Nut sizes — Not so on September 1.

ON the first day of this month Egg, Stove and Nut Coal was advanced 85 cents per ton at the mine. Pea Coal was advanced but 10 cents per ton.

From July 1 to September 1, Exclusive, Egg, Stove and Nut sizes advanced 95c per ton, Pea Coal 20c per ton

WE are expecting an advance of 75 cents per ton on Pea Coal in the near future.

DON'T wait and get caught in the "Fall and Winter Rush." If you wait you will pay higher prices and whais worse, you may not be able to get the coal when you need it most.
