

EASY TO SOLVE COMPENSATION

U. S. Commission of Labor
Statistics Addresses
Conference

Toronto, Sept. 23.—American and Canadian officials dealing with workmen's compensation and industrial problems met here to-day in the sixth annual convention of the International Association of Industrial Accident Boards and Commissions. George A. Kingston, commissioner of the Ontario Compensation Board, presided as chairman and a score of American officials were among the speakers for the day.
Discussing the desirability of uniformity of compensation acts, Royal Meeker, United States Commissioner of Labor Statistics, in an address, declared it would be an easy matter to draft an act to cover all states and the Canadian provisions in a single way than to be accomplished by any existing state act. Differences in wages, hours, working conditions in various industries offer no obstacle to uniformity, he said, provided the economic effects are taken account of. In the United States, he added, only the California compensation act meets such a provision. Mr. Meeker outlined in detail the provisions he believed any ideal compensation act should contain.

Opposes Uniform Act
Charles A. Andrus, chairman of the Illinois Industrial Commission, declared he had reached the conclusion that a uniform act was neither possible nor desirable. If such an act should be adopted by all states, he said, it would soon be so amended as to be unrecognizable. It was highly desirable, however, he said, that the association should agree on the essential features of such laws, drawn from common experience, and seek incorporation of these features when popular sentiment in each state or province permitted the making of adequate compensation measures.

Jeremiah F. Connor, special commissioner appointed to investigate the New York State Industrial Commission, spoke of the administrative difficulties with compensation acts. "Overformal procedure" in making awards tended, he said, to cause too great delays, but he added that he had found the great majority of the people who had any connection with carrying out such awards, well imbued with wide sympathy for the injured men and their dependents.

**Sextuple Launching,
New World Record,
Planned For Oct. 11**

Oakland, Calif., Sept. 23.—Sextuple launching, setting a new world's record, is planned by the Moore Shipbuilding Company of Oakland for October 11 when three big tankers and a like number of freighters are to be shunted into the waters of Oakland's inner harbor across the bay from San Francisco. The vessels have an aggregate tonnage of 64,200, the tankers, City of Reno, Salina and Sapulpa, being of 12,000 tons each and the freighters, Jalapa, Moselle and Jaelow, of 8,400 tons each.
Two of the ships will be started in their way to the sea by President Wilson and Secretary of War Baker, who, according to plans, will press electric buttons in Washington, starting the launchings here.

**King Albert Printed
on Belgian Stamps
From Post Office**

London, Sept. 23.—King Albert, as military leader of the Belgians, is immortalized in the new Belgian postage stamps which have just been received in London. The series portrays the King in active service kit, wearing the familiar steel casque of the Belgian army.
A new issue of Abyssian stamps also have reached here. There are fifteen of them, each one showing the possibilities of the country for big game hunting, with elephants, tigers, lions and other wild animals handsomely depicted. The familiar Jamaica's victory stamp is another newcomer. It is an oblong label, printed in dark green, showing troops on board a transport above the inscription "Troops Departing."

**Bolshevik Agents
Being Scattered
by Detectives**

London, Sept. 23.—The international agents who are watching the Bolshevik leaders believe they have now so isolated them from the world that they are no longer efficient in the spread of their dangerous propaganda.
Direct communication between the Bolsheviks and their agents abroad is being rendered increasingly difficult. Four months have elapsed since the last direct communication from the Bolshevik leaders in Russia reached their fellows here.
A Swede brought \$30,000 here recently for Bolshevik purposes. Five minutes after he delivered the money to an agent in London he was in custody. A Scotland Yard man was close to him during the whole of his journey to England.

**Italy Asks Aid in
Expelling D'Annunzio
From Fiume, Report**

London, Sept. 23.—The Italian government has just asked the Allied powers to send an Allied force, exclusive of Italians, to drive D'Annunzio out of Fiume, according to a report here, which is considered reliable.

**Completes Portraits
For War Department**

Paris, Sept. 23.—An important collection of portraits of allied war leaders has just been completed here by Dana Ford, the American artist, and will be sent shortly to Washington for presentation to the War Department as the joint gift of Mr. Ford and the American Red Cross.
The collection includes individual portraits of General Pershing, General Bliss, Colonel House, Admiral Benson and Marshal Petain, together with a group painting of the Supreme War Council, showing General Bliss, General Di Robilant, General Belin and General Sackville-West.
The big group painting represents the allied military chiefs in the conference room at Versailles, analyzing the intricate military situation at the time the Germans were driven back at all points along the Western front just before the armistice.
