NEWS OF STEELTON

CHURCHMEN HOLD MASS MEETING

Episcopal Leaders From New York to Explain Nation-Wide Campaign

Members of the Episcopal Church from Harrisburg and vicinity are arranging for a big mass meeting to be held Friday evening at 8 o'clock in St. Stephen's Church. The meeting is to be addressed by leading Episcopal churchmen from New York City, leaders in the nationwide campaign of the Episcopal Church. In addition there will be addresses by the Rt. Rev. James Henry Darlington, Bishop of the Harrisburg Diocese, and by the Rev. Malcolm Maynard, of Bellefonte, diocesan chairman of the nationwide campaign committee.

Original plans called for a meeting to be held Sunday evening, but this plan has been abandoned and the meeting will be held Friday evening instead.

The purpose of the meeting is to explain to members of the Episcopal Church the plan and purpose of the nationwide campaign, concerning which there still appears to be great doubt. The plan and purpose of the campaign is not to raise a certain amount of money as seems to be the common opinion. The plan is rather the consecration of all the forces of the Church and the redoubling of its efforts to fulfill its mission. Finances, of course, enter into the plan, but they do not take the more important position.

In addition to the mass meeting called for Friday evening which all Episcopals are asked to attend, a meeting is scheduled for Friday morning in St. Stephen's parish house, to which only a limited number of representative churchmen of the diocese are invited. The morning is for the instruction of laymen so that they may act as "Information Men" among the parishes of the diocese. The meeting will take luncheon at the Pennsylvania Hotel as the guests of St. Stephen's parish.

Committee Arranges For Examination of Scouts

At a meeting of the Scouting Committee of the Steelton Council of Boy Scouts the following arrangements were made for the conducting of examinations:

Tenderfoot examinations to be given any time by the Scoutmasters or by an assistant Scoutmaster designated by him. Second-class examinations to be given by Scout Commissioner McCoy Tuesday evenings. These examinations will be conducted by the Commissioner at his residence, South Harrisburg street, until such time as a hall can be secured.

Examinations in woodcraft will be conducted by John Boyer. It is the intention of Mr. Boyer to take the candidates for this examination into the woods on hikes and teach woodcraft at first-hand. The examinations will also be conducted on these hikes. Due notice will be given as to the date and time the hikes will be taken.

First-class examinations will be conducted by the Court of Honor at such time and place as will be designated by the executive committee to locate a hall or large room which can be utilized as a Scout Hall. The hall is to be used for the conducting of examinations and as a meeting place for troops which now have no suitable place. W. F. Mastines is chairman of this committee and will appreciate any information as to where such a room can be secured at a reasonable rental.

Scout Commissioner McCoy has announced the change of troop numbers. Troop 5 is hereafter to be known as Troop 2; Troop 6 becomes Troop 3; Troop 7 (Trinity Troop) becomes Troop 4. Several new troops are being formed, and it is anticipated that within a short time there will be at least nine or ten troops of Scouts in Steelton.

Making a purely vegetable Medicine

1875—1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests,—then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

- First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.
- Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.
- Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.
- Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.
