Catarrhal Deafness May Be Overcome

Be Overcome If you have Catarrhal Deaf-ness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parmint (double strength), and add to it 4 pint of hot water and a little granu-lated sugar. Take 1 tablespoon-ful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone los-ing hearing or who has Catar-rhal Deafness or head noises should give this prescription a trial. METAL WELDING

ere of the national committee for William Z. Foster, secretaryreasurer of the committee, declares that the committee, declares 'peace plans' but will discuss the advisability of extending the strike to include seamen on Great Laka carrier vessels and union trainmen. The question of financing the strike will come up and Mr. Foster says he will bring to the attention of the committee the "unprovoked as-saults" by State Troopers on strik-ers. According to the secretary, the union is preparing for a long strug-gle, and he declares the workers will "fight to the bitter end." The strike situation in the Pitts-burgh district remains practically unchanged. The union men declare that thousands of the strikers daily, ing the ranks of the strikers daily. hat the IF YOU HAVE SOMETHING you have no further use for that you wish to exchange for something you can use, you will find it to your interest to communicate with AUCTIONEER HITE. Bell 1875J. EVERYTHING IN ROOFING and WATERPROOFING. that thousands of workers are join-ing the ranks of the strikers daily, and that scores of mills have been crippled. Employers say they are pleased with present conditions, which it is announced by a repre-sentative of the Carnegie Steel Com-pany, are "improving and encour-aging." It is known that many mills in the district are shut down en-tirely, some are working with short forces, while others are operating at almost 100 per cent. Union activity in the district to-tay was marked for the first time since the strike opened, by the plac-ing of plckets near plants, this ac-tion being taken on instructions from the strike committee. summary given out by an official of the Carnegie Steel Company to-day says: "The overnight situation has been very gratifying. The men are com-ing in at the various plants in small numbers to be sure, but sufficient to continue our operations. "There seems to be a sentiment among the foreign workmen around some of our plants this morning that would, tend to relieve the situation very soon. In some manner it has got to them that the American work-man has not gone out as the for-eigner has been told, and the latter has given expression to the desire to be an American and in some in-stances to have resented being called 'un-American." "If this sentiment proves to be general it cannot but be helpful to the entire situation, and that it is at least growing and spreading would apparently be indicated by the gradual return to work. "Th all our big mills, those up the Monongahela valley, further im-provement is shown to-day. The foreign laborer is returning in all of them, Homestead, Duquesne and Edgar Thomson. "There is a most marked improve-ment at Clairton, while at Farrell, despite the continued disorder and rioting, we are still working. "All in all there is an improved we look to continue."
