Make Close Study "Those who are continuously hav-ing all kinds of trouble should get a good lesson from a close study of this record. The engine house peo-ple also have a lesson to learn—7.6 per cent. of the freight engines fall-ing on the road in one month is entirely too high. Investigation as to cause for these failures develops that at least 90 per cent. of them are due to repairs not being prop-erly made." The bulletin concludes with the statement that it is believed by Pennsy officials that this record can be improved upon. Anniversary \$24.41
