

Declares Italy Ready to Step in if D'Annunzio Had Not Taken Step

Paris, Sept. 24.—"As a nation we consider the Fiume matter settled, because we have actual possession," said General Giuseppe (Peppino) Garibaldi to an Associated Press representative here this morning.

The Best Coal Mined in Pennsylvania

It will not be long before furnace fires will be necessary to keep our homes comfortable. Those who have their coal bins filled for Winter are fortunate, indeed.

Those who have their bins filled with Kelley's "Blue Ribbon" anthracite are doubly so.

For this coal is the highest in heat-giving quality mined. There is less waste to it by actual test. And, with fuel as high as it is this Winter, coal home-keepers owe it to themselves to get the best.

If you need coal, by all means order it now.

Don't Spoil Your Hair By Washing It

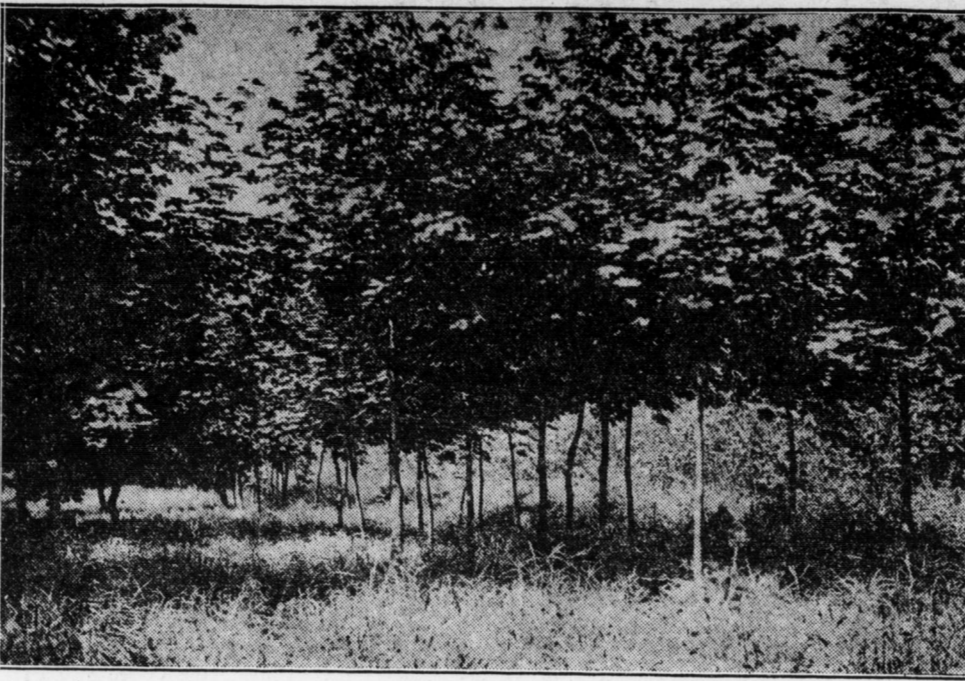

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

WEAK, SICKLY PEOPLE WILL NEED STRENGTH TO AVOID INFLUENZA

Strong, Physically Constituted People Run Little Chance of Ill Effects from "Flu" than Do Weak People.

People with good red blood should withstand germ diseases like the "flu." Because good, pure blood has a generous amount of white corpuscles (called fighters), whose sole duty in the blood is to fight off germs that cause matter and carry them out of the system.

DELAYS DEBATE ON AMENDMENTS

Senate Postpones For Week Consideration of New Provisions

Washington, Sept. 24.—The first test in the fight now being waged about the Peace Treaty with its League of Nations Covenant, came late yesterday on a motion by Chairman Lodge, of the Foreign Relations Committee, to postpone for one week consideration of some forty amendments which would relieve the United States from service on commissions created under the Treaty.

The motion, not of itself important, was accepted to-day by opponents of the League as the best possible index of the feeling and attitude of the Senate toward the Treaty and the Covenant. Democratic leaders declared it meant nothing.

Except in three instances the vote, on which the eyes and noses were demanded by Senator Hitchcock, followed party lines. Senator Jones, of Washington, and Senator McCumber, of North Dakota, both Republicans, voted against the motion, and Senator Reed, Democrat, of Missouri, voted for it.

Heavy Cordon of Police Guards Plant Where Riots Occurred

[Continued from First Page.]

Buffalo, N. Y., Sept. 24.—With the plants of the Lackawanna Steel Company, Rogers Brown and Company and the Donner Steel Company closed and additional deputies and state police patrolling the streets of Lackawanna to-day, there appeared to be little likelihood of a recurrence of the trouble which led to the killing of one man and the wounding of several others last night.

Chief Gilson, of Lackawanna, who was in the crowd trying to disperse it when the Lackawanna guards opened fire, was inclined to censure the strikers for over-hasty action, although he said the provocation was great. With the arrival of fifty state police to-day, he said, the special guards would be asked to keep within the grounds of the steel plant.

Union leaders announced that their attention would be directed to-day toward the plants of the Wickwire Steel Company and Ferguson Steel and Iron Company which heretofore have been unaffected by the strike.
