WEAK PEOPLE WITH THIN BLOOD LIKELY TO BE 'FLU VICTIMS'

Thin Blood Lacks White Corpuscles (called fighters) That Keep Germs Out of the System—Weak, Run-down People should begin at Once to Revitalize Blood.

People who are weakly, pale, delicate and worn out with a small amount of this kind of blood will experience difficulty in overcoming the "flu" unless they revitalize and renew their blood.

Splendid Way To Reduce Your Weight

There is perhaps no one thing that so plainly shows the passing of our youth as the horrid tendency to put on too much weight after we have reached the age of 25 or 30 years.

When you puff up on a King Oscar Cigar... You're getting a darn good smoke for the money. Care, brains, experience and the desire to do the right thing takes care of that.

SOW IN FALL FOR THE BEST LAWN

Makes Greensward Healthy and Abundant From Early Spring to Late Fall

Washington, Sept. 25.—If you desire a greensward that is slightly attractive, healthy and capable of producing an abundant growth from early spring until late fall without developing unsightly bare spots or brown, seared turf, sow your grass seed in the fall and savor early enough, so that the grass plot will make sufficient growth to weather the winter in a rugged, robust condition.

Good lawns are difficult to establish and maintain in the territory mentioned. Two of the subtropical grasses, crab grass and Bermuda grass, are extremely troublesome as weeds.

Crab grass once established can be eliminated only by hand weeding, a method not advised except where one has a very small area to consider. Despite the widespread abundance of crab grass in the middle states of the country, it is not so common in the north.

Foster Cannot Say That Gary's Refusal Will Mean Strike

Pittsburgh, Sept. 25.—The question of whether there will be a strike of the Bethlehem steel workers early to-day hangs in the balance.

The situation affects the company's plants at Steelton, Lebanon, South Bethlehem, Titusville and Reading, in this State and Sparrows Point, Md.

Shipbuilders Stay on Job

Mr. Foster at the close of the advisory committee's meeting began getting in touch with members of the union.

Get Grace's Reply

Allentown, Pa. Sept. 25.—Labor leaders here were given a summary of the contents of President E. G. Grace's reply by letter to the national committee for organizing iron and steel workers.

BETHLEHEM STRIKE HANGS IN BALANCE

Shipping Unions, claiming to represent 18,000 seamen, engineers and men of allied trades, met to decide whether their organizations would declare a sympathy strike.

Local leaders replying to Mr. Grace's contents, state that the Bethlehem system of collective bargaining instituted by the company with the men and said to be under the name of the National Committee for Organizing Iron and Steel Workers.

MAY CLOSE MILL, COMPANY SAYS

Impossible, I appreciate the rise in the cost of living.

The strike will mean, officials say, that all separate work will be forced for close, whether the workmen in them go out or not.

The strike committee, on the other hand, was in a very hopeful mood. More men had gone out than was expected.

Natives Shave Heads to Let the Heat Out

Though the Philippines have made marked strides in culture, industry and civilization in recent years, as set forth in their recent pleas for independence, some natives of the islands, as do a few Indian tribes in the United States, still present striking subjects for study by ethnologists, according to a bulletin from the National Geographic Society.

The Negroes are generally considered to be the true aborigines of the Philippines and are racially numerous tribes of the islands, says the bulletin, which is based on a communication to the society from Dean C. Worcester.

Throughout the year they subsist chiefly on vegetable products, which they obtain from the virgin forest, and on fish and game. They are wonderful woodsmen and display great skill in taking fish and game and in still-hunting their enemies.

Cut Cost of Living

Do you know you can dine in a clean restful room, full of sunlight and fresh air, where the food is prepared under the direction of an expert; in a sanitary kitchen. Everything properly seasoned in the good old home way and where each item served, including Fruits, Pastry, Salads, Meats and Vegetables are tastefully displayed in hot or cold tables for inspection before ordering.
