Collapse of Strike

Birmingham, Ala., Sept. 26.—
Openly admitted dissension between union officials and factions of union members eclipsed in interest the actual steel strike situation here and has caused operators to predict a collapse of the whole strike movement.

Union leaders declare they had their recalcitrant members in hand and say developments of the next few days would demonstrate the strength of the unions.

Pittsburgh, Sept. 26.—Interest in

Pittsburgh, Sept. 26.—Interest in the steel strike situation in the Pittsburgh district to-day centered about the fight of the union for the "right of free speech and assemblage" in a Allegheny county, a question which has been prominent here for many months and which was brought to a head by the walkout of steel workers. According to union representatives, authorities of certain cities and towns in the country have refused to grant permits for the NOTICE—Letters testamentary on the estate of Margaret P. Miller, late of the City of Harrisburg, Dauphin County, Pa., deceased, having been granted to the undersigned residing in said city, all persons indebted to gaid estate are requested to make immediate payment, and those having claims will present them for settlement at the office of Miller Brothers & Co., 213 Locust Street, Harrisburg, Pa.

resentatives, authorities of certain cities and towns in the country have refused to grant permits for the holding of mass meetings and have sanctioned the breaking up of such sessions by State troopers and local police in many instances.

The action of troopers and other officers in forcing the suspension of what union leaders term "orderly and lawful meetings" since the strike started, has caused the workers to appeal to Sheriff William S. Haddook, with the request that county authorities afford them protection. The troopers maintain that in breaking up the meetings, they are carrying out a recent proclamation by the sheriff, in which the gathering of more than three persons at any one point within the strike zone is forbidden.

According to union representatives the sheriff has given them permission to hold index meetings.

All was quiet at strike headquarters here to-day. Secretary Foster was devoting much of his time to summoning the national organizing committee to Pittsburgh for a conference on the reply of the Bethlehem Steel Company refusing the union a conference. He said that John Fitzpatrick, charman of the committee, will be in Pittsburgh for the meeting.

Reports from roungstown that, striking steel men were going to take a vote to-day on the question of returning to work, were charac-terized by Mr. Foster as untrue and propaganda to disrupt the ranks of

galleon was burned and its crew made to walk the plank, have been found in an ancient galleon raised from the sea.

The piece of eight was the legitimate forebear of our present silver dollar, the "dollar of our daddiea." When Congress determined the size and contents of the silver dollar it used as its model the Spanish milled dollar" of eight shillings, but, fortunately, made it a "piece of ten" instead of eight by adopting the decimal system and giving us dimes instead of shillings. Yet, for nearly a century thereafter, many of 'our people, especially in the Northern and New England States, continued to figure accounts in shillings, but to collect them in dimes. What visions of those bold buccaneers who "salled the Spanish main" resurrection of the treasure of this sunken galleon conjures up, of not only the plrates who have been mentioned, but the almost equally piratical Sir Francis Drake, and those other English and Dutch adventurers who preyed upon shipping in both the Atlantic and Pacific, off the coast of Panama and in the seas and passages of the West Indies. It is said of one of these English royally indersed pirates, that his ship departed with cotton sails and returned to England with sails of silk.
