Atlantic's Great in the Hill-Country

There's "climb" in every nerve and fibre of Atlantic Gasoline. Put it to the test of the hill-country. Drive-wheels grip the road with the certainty of spur-gear and pinion under the onward. upward urge of mighty Atlantic.

Ration your trucks with Atlantic Gasoline. Give your driver the assurance of being carried up and over, where the grade is steep and the pull long and tedious.

It is tremendously significant that a vast majority of trucks and passenger-cars in the State use this mighty motor-fuel exclusively. Profit by the experience of those who have put Atlantic to the test of the climb.

Atlantic's positively great in the hill-country.

has manifested itself in the advo-cace by men in high places of an abandonment of the American sys-tem of government. He dealt severely with Judge Gary, of the United States Steel Cor-poration, for a speech in which he quoted Gary as saying that the "principles of Washington have gone out of fashion." He denounced President Lowell, of Harvard, for making fun of Washington's fare-well address, as a document repre-senting ideals that are no longer entitled to respect. Grater Than Government He quoted the President's state-ment that the League of Nations is greater than the government of the United States. Those who would subordinate this nation to a combination of other inations, who would destroy the ideals of liberty and independence that have been the heritage of the serted, are as dangerous and de-structive as those who would destroy the foundations of the government in the United States. Must Get Together The strike of steel workers was discussed again. Senator Sherman, Republican, Illinois, told of receiving pictures showing mobs of striking foreigners attacking Americans who desired to work in the steel mills and Senator Thomas, Democrat. Colorado, said it was time for Amer-icans "to get together." Senator Poindexter, Republican, Washington, read excerpts from a book on "Syndicalism," part of which was written by William Z. Foster, secretary of the Strikers' Committee. Washington, Sept. 30.—President Wilson, for the second time in as many days, was placed among those who would overthrow and destroy the American system of government and with it American sovereignly and ideals, by a senator of the United States. Senator Borah in one of the strongest speeches he has ever made, declared in the Senate that the poli-cies and doctrines which the Pres-ident has been advocating are just as subversive of American institu-tions, just as destructive of the prin-ciples of liberty which have been upneld in this country since the be-divident of the government as the advocates of lawlessness who are meeking to substitute Bolshevism and moto rule for the orderly processes mob rule for the orderly processes of law.

Bandit Forces of Raisuli Are Completely Defeated by Spaniards

and Uperators Continues By Associated Press Philadelphia, Sept. 29. — The existing contract between the an-thracite mine workers and operators, including the supplemental agree-ment providing for the payment of bonuses entered into last November, will continue in effect until March 31, 1920. It was so decided at a conference here to-day between the presidents of the three anthracite districts of the United Mine Workers of America and the committee of anthracite operators. The conference was called to con-sider the sixteenth demand of the workers at Wilkes-Barre calling for a continuation of the supplemental agreement, which was to have ex-pired with the declaration of peace. With the exception of continuing this supplemental agreement no change was made in the general contract. A scale committee was named at the tri-district convention to negotiate a new agreement, but this question will not be taken up until later. Madrid, Sept. 30.—The forces of the bandit Raisuli, who has been in rebellion against the Spanish au-thorities in Morocco, were complete-ly defeated in an all-day engagement Saturday, according to dispatches from Morocco received by the news-paper El Dia. Artillery and air-planes were used effectively by the Spanish forces. Le Fondak, Raisuli's habitual headquarters, is reported to have been occupied by Spanish troops.

The month of October marks another milestone in our Harrisburg business career. Beginning tomorrow, Wednesday, and all through the month of October we celebrate our 5th Anniversary with the most extraordinary Optical Offer that has ever been laid before the public, anywhere.

We have two purposes in view in making this exceptional offer. First, is the announcement of our New Optical Insurance Policy which Insures you against lens breakage and Change of Vision for One Year. There are no strings to this Policy. We fit you with glasses in which we have the utmost confidence and we are willing to back that confidence with our One Year's Guarantee and Insurance Policy against breakage. There has never been such a guarantee made before by any concern, anywhere, to the best of our knowledge.

Then we have another purpose. About six months ago it was necessary for us to seek larger quarters to accommodate our greatly increased business. We moved into our present location-the Penn-Harris , Hotel Building -in what we know to be the finest equipped and most complete Optical Store between Philadelphia and Pittsburgh. There are some people who feel that because of our fine.location our prices must be high. In that they are wrong. Our growing business required expansion, and in addition to a finer location we could be more easily found. That meant increased volume and increased volume meant lower prices to you.
