U. S. Control of Sugar

Is Now Being Urged to
Prevent Feared Famine

Washington, Oct. 1.—A virtual sugar famine, government officials fear, is inevitable. The price of sugar may go as high as 30 cents a pound unless the government assumes control of distribution.

Even then, it is likely to go to 15 cents this winter and for several central control to the formulate the supply of sugar for the production of candy, soft drinks and other luxuries would be strictly limited, and the price of sugar to the house-holder regulated. Simultaneous "Lockout" and "Strike" Closes

New York, Oct. 1. — The press rooms of two hundred and fifty new York printing plants, employing 10,000 men and publishing nearly all of the magazines and trade journals in New York, as well as a large percentage of the books printed here, were closed to-day by a simultaneous "lockout" and "strike."

The lockout, ordered last night by the printers' league section of the Association of Employing Printers, is supported by the International Printing Pressmen and Assistants' Union of North America, the American Federation of Labor, body, which is waging a battle for supremacy over alleged "outlaw" logal unions.

The local unions involved are Pressmen's Union, No. 1; Franklin Union, No. 23 (feeders); Paper Handlers' Union, No. 1.

The men affected by the lockout order assert that they are on strike, beginning this morning, and predict that they will win their demands, which ireclude a 44-hour week and a \$14 weekly increase in wages. Pickets were placed before all shops.

Fall Pleads For Adoption of His 36 Treaty Amendments

Washington, Oct 1.—The German Peace Treaty got a three-hour speeding up in the Senate yesterday afternoon, all but thirty minutes of which was an address by Senator Fall, Republican, of New Mexico, attacking the League of Nations covenant and leading for adoption of his thirty-six amendments which keep the United States free from representation on foreign commissions, created by the pact.

The rest of the Treaty program was an address by Senator Edge, Republican, of New Jersey, in which he urged Republicans and Democrats alike to hasten its consideration so that Congress might deviate its time and attention to pressing problems at home.

Eaplier in the session the Treaty and covenant came in for considerable discussion, however, while the Senate was debating, at times with feeling, a resolution requesting the President to transmit a report of the landing of American sailors at Trau after Italian forces had taken possession of the fort. The vote on the measure was 264 to 4. The regulatory features of the bill will become effective immediately on its passage, but ninety days for an adjustment of the business affected is allowed before penalties will be applicable.

Vast quantities of food now in storage are expected to be released as soon as the measure becomes a law. Cheese is the only commodity exempted, the time limit for storage to perfect ageing being extended for a longer period than one year.

Persons convicted of violating the law would be fined \$1,000 or imprisoned for one year.

May Establish Council to Settle Disputes

By Associated Press.

Washington, Oct. 1.—Proposals for the establishment of a council for estitlement of industrial disputes, replacing the recently dissolved War Labor Board, probably will be one of the first subjects brought up for discussion at the labor and industrial conference called by President Wilson to meet here Monday, it was learned from Department of Labor officials in close touch with the arrangements for the meeting.

ADOPT PARTY PLANKS

By Associated Press.

Trenton, N. J., Oct. 1.—The Republican and Democratic State conventions were held in this city yesterday and each adopted a platform
for the campaign in New Jersey.
The Republicans declared that as
the prohibition amendment is part
of the Federal Constitution, it will
not be necessary for New Jersey to
ratify it and that in fact it is no
longer a political issue. This plank
met with the approval of the New
Jersey Anti-Salcon League and an
announcement was made that the
league would not, therefore, put up
an independent chandidate. The Republicans also recommended that
the question of New Jersey's ratification of the woman suffrage
amendment be put to a referendum
of the State.

Court Decides We Have the Right to Give WILLARD SERVICE

On Storage Batteries

The recent case against D. J. Moran for alleged false advertisement was dismissed promptly by Judge Henry as unjustified and lacking in any evidence to warrant a case. In fact, it wasn't even necessary to present our witnesses.

D. J. Moran proved to the satisfaction of the Court that he had taken the instruction course at the Willard factory and been duly authorized by the Willard Company to come to Harrisburg and invest his money in the Willard Service Station, the Court held that Moran was perfectly within his rights when he advertised that he gave service on Willard batteries or bought and sold them.

We do not try to prevent any one else from giving service on Willard or any other battery, but we do claim that we are perfectly qualified to render the best of service on Willard or any other battery. In fact, we have many satisfied customers who will substantiate the statement that we have taken their batteries which were condemned by others and put them into first-class working order.

When you have batteries that are condemned consult us before throwing them away. We will give you expert opinion as to its true condition without trying to influence you to buy a new battery unless absolutely necessary.
