Says His Prescription Has Powerful Influence Over Rheumatism Discoverer Tells Druggists Not to Take a Dime Unless Allergic Completely Unless All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times the terrible disease left him helpless and unable to work.

He finally decided, after years of restless striving, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid, are completely dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let others everywhere know about his discovery through the newspapers.

Dr. A. G. Gorz has been appointed agent for Allen's in this vicinity, with the understanding that he is to give away his medicine free to all who state they received relief from his system.

Gen. Graves Holds Rifles From All-Russian Govt. Because of Newspapers

Omsk, Tuesday, Sept. 23.—Major General William S. Graves, commander of American forces in Siberia, in retaliation for alleged scurrilous articles published in a Vladivostok newspaper and hostile acts of Cossack chiefs in the Far East, has held up a shipment of 14,000 rifles which recently arrived at Vladivostok from America consigned to the All-Russian government at Omak.

Giving notice of his action by telegraph through Major Slaughter, his representative here, General Graves, in direct and forceful language declares he will personally cause the arrest of the offending editor and the suppression of the newspaper, the Golos Rodini, unless the Omak government does so.

He asserts further that unless the activity of the Cossacks chiefs is controlled he will recommend that America refuse to render further assistance to Russia. General Graves says he will retain the arms until advised as to what action the Omak government proposes to take.

In replying, the Omak government says that, in its view, the subject constitutes a diplomatic and not a military problem, which should be approached through recognized diplomatic channels, and that the government, therefore, awaits a communication from the State Department at Washington. It says that "not wishing to formulate any recommendations, it will not enter into an argument which might impair the lively sympathy which it believes has been awakened in America for the cause of Admiral Kolkchak."

DEPUTY DECLARES FRANCE SLIGHTED BY WORLD FACT Paris, Oct. 2.—Complaint that France had been slighted in the make-up of the League of Nations, because the French colonies were not represented in the league, although each British colony would have a delegate, was expressed by Deputy Augagneur in the debate in the Chamber of Deputies.

Herr Mueller disavows any intention by Germany to arm herself again and demands that the rest of the world also disarm.

Striking Shipyard Workers Stay Out Although Called Back

New York, Oct. 2.—Many of the shipyard workers who went on strike yesterday remained away from the yards to-day, although the strike order was rescinded to await the outcome of a conference in Washington of officers of the Shipping Board and the heads of the international unions involved. The chief demands of the unions are for a 44-hour week and increased wages.

The walkouts yesterday by a small percentage of the employers seriously affected work. At six shipbuilding places on Staten Island it was said half the men were absent; 1,000 men employed by Tietjen and Long and by the W. and A. Fletcher company in Hoboken, struck, and 500 men quit at the Bethlehem Shipbuilding Corporation and the New Jersey Dry Dock company at Elizabeth.

The situation along the water front was more serious, several thousand longshoremen, principally from Brooklyn, going on strike, although their demands for higher wages were being heard by the National Adjustment Commission.

Another complication to the water-front situation resulted when 1,600 members of Ship Scales' Local No. 23 of the Riverfront and Marine Workers' Association went on strike. They demanded a 255 per cent. increase and a 44-hour week.

Little Girl Accuses Man of Enticing Her to Reservoir Park

Accused of enticing eight-year-old Margaret Bartlett into Reservoir Park and abandoning her there in the early part of last June, John Hetrick, 34 years old, of 1513 Regina street, was taken into custody by Harrisburg police last evening. He was to be given a hearing in police court during the afternoon.

Hetrick was arrested by Motorcycle Officer Paul Schellhas last evening, following his accusation by the girl, who is the daughter of William Bartlett, blind shopkeeper of 1244 Market street.

The girl and her mother were attending a motion picture show at Thirteenth and Market streets when she saw Hetrick in the crowd and pointed him out to her mother. The police were notified. Hetrick's arrest soon followed. Hetrick maintains his innocence.

The little girl was reported missing about 10 o'clock one night after she had been sent to mail a letter for her mother. The district and Reservoir Park were thoroughly searched, but no trace found of her until the keeper of the park discovered her wandering about the following day.

She told the story that she had been taken to the park, led to an outbuilding there and abandoned by the man when he went to get a drink for her. The following morning she told city detectives she had had a good look at the man and could identify him. Later, she pointed out one man. He was held for some time until his beard could grow, but later was unable to identify him.
