ONTRACTORS and builders are becoming more exacting in their demands every day,

They are constantly looking for lumber that is well seasoned, easy to work, easy on tools, takes paint and stain readily and holds it.

We've been in business long enough to know good and bad lumber. Quality counts in lumber. Quality in lumber is as important as quality in other material-don't forget this.

Some day you'll build. See that the lumber comes from UNITED.
