

MISS GORDON IS SAVED BY WILSON

Miserable Orchestra Detracts From Ragged Performance of Untrained Cast

Before a most patient and long suffering audience, the new Kitty Gordon show, "Love For Sale," opened last evening at the Orpheum.

The saving grace of the pitiful exhibition was Jack Wilson, who saved the situation a dozen times in his black face character.

The dancing of Marguerite Severin was the only other bright spot in an otherwise gloomy evening.

Coal Troubles Ahead

THE COAL TRADE PAPERS are now warning the public that "concerted action" must be taken if consumers are to be protected from a very great increase in the cost of coal due to the latest demands put forward by the miners.

These demands involve a six-hour day, a five-day week and an advance of 40 to 60 per cent. in wages.

Coal Miners: "We demand a six hour day, a five day week, and a substantial increase in all rates of pay."

Coal Operators: "Well we can grant your demands but we'll have to take it out of the public."

Result:

Landlord: "On account of the increased cost of coal I'll be obliged to raise your rent."

Gasman: "On account of the increased cost of coal, your gas bill must be increased."

Railroads: "On account of the increased cost of coal the cost of transportation has advanced."

Manufacturer: "On account of the increased cost of coal all manufactured articles have gone up in price."

Merchants: "On account of the increased cost of coal we are obliged to raise our prices."

The cost of coal, of course, effects everybody. Coal has become such a fundamental factor in our society that any rise in price is almost immediately reflected in the price of everything else.
