Here Is One Thing That Is Absolutely Impossible

Rheumatism Has Never Been Cured by Liniments or Lotions, and Never Will Be. You never knew of Rheumatism—that most painful source of suffering—being cured by liniments, lotions or other external applications. And you will never see anything but temporary relief afforded by such makeshifts. But why be satisfied with temporary relief from the pangs of pain which are sure to return with increased severity when there is permanent relief within your reach? Science has proven that Rheumatism is a disordered condition of the blood. How, then, can satisfactory results be expected from any treatment that does not reach the blood,

the seat of the trouble, and rid the system of the cause of the disease? S. S. S. has for more than fifty years been giving relief to even the most aggravated and stubborn cases of Rheumatism. It cleanses the blood by routing disease germs. The experience of others who have taken S. S. S. will convince you that it will promptly reach your case. You can obtain S. S. S. at any drug store. PENNSY SHOPMEN OUT ON STRIKE

Workmen at Altoona and Hollidaysburg Resent Master Mechanic's Action

Altoona, Pa., Oct. 10.—Employees of the Pennsylvania Railroad engine house, located in this city, East Altoona and Hollidaysburg, are on strike.

Out of a total of 2,294 it is estimated there are 1,700 men on strike, members of six union crafts. Only the clerical forces, engine hostler and laborers are not affected by the strike.

There was a possibility yesterday of the strike being extended to the various other shop departments at this city, Juniata, South Altoona and East Altoona.

Cause of Strike
The strike originated in No. 3 engine house in this city, and was caused by Master Mechanic G. J. Richers, of the Middle Division, appointing the assistant foreman at the Hollidaysburg engine house to the position of assistant foreman at the engine house at Sixteenth street.

The promotion of the assistant foreman, question was made early this course has not been followed.

The claim of the striking men is that this man should not have been appointed to the position, as there was another man, just as efficient, employed in the roundhouse, who has been longer in the service of the company.

Union officials conferred with railroad officials on the subject, but they declined to make any concessions, according to the statements of the

Railroad officials, on the other hand, assert the union men were violating their own agreement with the company in calling a strike; that there is a regular course to be pursued in cases of disagreements and the course has not been followed.

The controversy has been taken up directly at Washington. Communication has been had with President Jewell, of the shop crafts at the National Capital, and the situation outlined to him. He will take it up with the proper authorities there. Railroad officials have likewise apprised Federal railroad administration officials of the situation.
