You Can't Brush or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you can wash it away. Do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

The following method will actually compel your hair to grow faster, longer and with a superior gloss of life and vigor than anything else known. You can do it, as thousands of others have already done. A few days' use of this formula will convince you that what I say is right. Not half of its wonderful work has been told. Just try it. Hair will stop falling, thin be the envy of your hair will grow worth, to a hair pint each of witch-hazel instead, and mix thoroughly. Use this mixture liberally every day. It is not oily, and is very pleasant to use. You will find it exceedingly economical.

LITTLE GIRLS POISONED BY INSANE MOTHER WILL LIVE

Chicago, Oct. 14.—The hope with which Roy Luikart has watched at the bedside of his two little daughters has been rewarded. Both the little sisters are getting better. Unless there is some slip, unless fate forgets for a moment the kindness which she has shown, both Sherley and Edna will get well. Medicine and fresh vigorous blood transfused into her system have given to Sherley the strength with which she crept away from the death predicted for her. "She really is a very ill, weak little child," Dr. Thomas Carter announced yesterday, "but she is responding to treatment. Edna is plainly better."

The Contest Is Over---the Results Have Been Almost Beyond Belief!

To the people of Harrisburg who so generously responded to our request for opinions of PYRODENTO, we wish to express our grateful appreciation.

The response was overwhelming—far greater than anything we had ever hoped for—and the work of the judges was by no means easy.

The opinions were so frank, so straight-forward—just exactly what we wanted—and all of uniformly high character. Everyone seemed to be impressed with the sincerity of our request and the responses were written in the same spirit.

A number of the opinions were so good, in fact, that they had to be read over many times and compared and discussed before the awards could be made. We feel now that we know exactly how you feel about PYRODENTO, and we promise you one of the most interesting advertising campaigns ever addressed to the people of Harrisburg.

The one thing that seemed first to impress people about PYRODENTO—aside from its delightful taste—was the speedy manner in which it cleaned and brightened the teeth. And yet this scientific dental aid contains absolutely no dangerous drugs or coarse abrasives. It cannot possibly harm even the most delicate mouth tissues.

One enthusiastic contestant wrote us that the total absence of grit and hard substances from PYRODENTO was the strongest point in its favor. Still another wrote of the economy of PYRODENTO because less of it is required for each cleansing.

All of these things are true, and more—but we shall touch upon its other qualities in our later advertisements. We thank you most sincerely for your liberal co-operation.
