PUPILS AID TO SCHOOL FACULTY

Camp Curtin Has Assistant Secretaries and Student Hosts

A quiet but very helpful and efficient staff of assistants to the home room teachers of the Camp Curtin Democracy are the student secretaries.

At the beginning of each school day, two attendance secretaries, appointed by their home room teacher, receive prepared blanks in each of the thirty home rooms, and carry the blanks to the recitations of their section, recording all absence and tardiness of the day, occurring in their group.

The inclement weather prevented Coach Miller from taking the Edison squad on the field at Seventeenth and Chestnut streets last evening. The Edison gymnasium is almost ready for use so the squad was taken there and put through a snappy signal drill. The coach in directing this drill was preparing the squad for Saturday's game with Palmyra High School, at Palmyra. Manager Lyons has succeeded in arranging a game with the Millersburg High School team at Millersburg for November 8. Lyons will be able to announce a complete schedule in a few days. He has enough games pending to fill all dates but the Palmyra and Millersburg are the only ones definitely arranged.

Bear Season Is on Today; Local Hunters Are Few

Harrisburg hunters who go after bears were not out to-day in full force. They generally wait for cooler weather. As the season starts to-day, ends on December 15, they feel there is plenty of time for hunting the big game.

The game code allows one bear to each individual or three in a camp. No traps or deadfalls are permitted. Bears are rather scarce in regions where they were reported to be a nuisance last year.

The season for quail, ring-necked pheasants ruffed grouse and squirrels opens next Monday, October 20.

FARM AGENTS CONFERENCE Sixty representatives, including farm agents from nine county farm bureaus, were in attendance at a group conference which continued throughout the day at the Penn-Harris Hotel. IS YOUR SKIN ABLAZE WITH FIERY ITCHINGS?

Don't Continue to Suffer Because of Wrong Treatment

If you are one of the thousands who are afflicted with any form of irritating skin disease, very often you know what real torture it means to lay awake at night, rubbing and scratching your raw and irritated skin, in a vain endeavor to get relief from the fiery burning.

Of course, the most serious phase of skin disease is the almost unbearable suffering caused by the fiery itching and irritation of the skin. In addition, the disease often causes unsightly roughness and discolorations, disfiguring and spoiling the complexion, and leaving its blighting marks in its wake. Many a beautiful skin has been marred by these disorders which first appeared as tiny red pimples.

At last science has determined the real source of all skin diseases, and with this enlightenment comes the reason why the prevailing treatment heretofore used has proven such a complete failure. It has been proven that impurities in the blood cause

AN ATTRACTIVE MAGNET Imagine a magnet that can lift ten tons! This is what the Bethlehem Steel Works uses every day when steel rails are carried from one point to another. This magnet is arranged on a movable crane and picks up steel rails and other heavy material as easily as a toy magnet which we all know can pick up a pin.

This remarkable invention is only one of many unusual things shown in the new "silver jubilee" program of the Lyman H. Howe Travel Festival, which comes to the Orpheum on Friday and Saturday with daily matinees. The new Howe program also includes exciting swimming, diving, canoeing, aquaplaning and other water sports in the Maine wilds; a hand-car four down the Andros Mountains; a tarpon fishing off the Florida coast; a stroll through the exquisite Magnolia Gardens in Hollywood; and visits with famous film stars; perilous adventures in the Canadian
