The District Attorney's office also opposed it.

JURY VERDICTS
In the cross suits between Clyde Strine and P. Boova, a jury awarded a verdict in favor of the former for \$111.92 to-day. In the statements filed by counsel for Mr. Strine and Mr. Boova it was alleged that each was responsible for an auto collision November 4, 1917, on the road between Enola and West Fairview. The jury returned a verdict for \$750 in favor of John C. Witmer in his suit against the Pennsylvania Rails road Company. Cases being heard to-day were J. C. Samuel Gompers, chairman of the labor group, who conducted a vigorous fight yesterday against sending the arbitration resolution back to the committee of fifteen was detained by Frank Morrison, secretary of the American Federation of Labor.

Vote Postponed

On a ruling by Chairman Lane, that the Baruch motion was one of procedure on which individual votes could be cast, action on the steel resolution was postponed until next Thursday and the conference recessed until afternoon. The public and labor groups cast their individual votes for the Baruch motion, Judge Elbert H. Gary being the only member of the public group to vote with the employers against it.

variation in the readings of the different scales were tremendous. Nowadays farmers are required by law to use standard scales, inspected at regular times by State men, and consequently there is much less "gouging" and that sort of false measuring which has gone on before. Of course, there is bound to be a slip-up occasionally, but that cannot be helped.

Standard Weights
F. S. Holbrook, of the National Bureau of Standards, gave a most interesting talk on the operation of the standard barrel act, and of the climax basket act. Yesterday afternoon Mr. Holbrook gave a talk on the legislation requiring the stamping of the net weight on wrapped meats, and the standardization of baskets, hampers, barrels, etc. This morning he explained the operation of the two acts mentioned above and told his inspectors what their part would be in the carrying out of the laws. Following his #ddress, there was a ten-minute period of discussion, when Mr. Holbrook answered many questions which were put to him regarding the two acts.

After his address, the conference adjourned until this afternoon, when the last addresses of the program were made. Owing to the late arrival of some of the inspectors, the program has been entirely altered, with the result that it has also been consiperably speeded up. O. Evans Mikesel, of Washington county, was scheduled to make an address on "Mine Scales." which should prove interesting, and an address was made by Fritz Reichmann, of St. Louis. It was hoped that the Governor would also be able to say a few words to the conference. Yesterday afternoon in addition to Mr. Holbrook, R. C. Welch, scale inspector for the Pennsylvania Railroad Company, gave a talk on "Wagon and Truck Scale Difficulties," and Lieutenant-Governor E. E. Beideman welcomed the conference to the Capitol.

After the program of speeches, the report of officers took place. The meeting will in all probability adjourn this afternoon, although some unfinished business may make it necessary to have another session to-morrow morning. Young Girls' Soft Brim Silk Velvet Tailored Hats
