When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but

headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life.
