President Wilson, unless his condition shows a decided improvement, will not be permitted to accord even an informal reception to King Albert and Queen Elizabeth, of Belgium, when they arrive here Monday. This decision has been reached by Rear Admiral Grayson, Mr. Wilson's personal physician, it was learned to-day.

White House officials early to-day, however, were more optimistic as to the President's condition and expressed the opinion that he at least seemed to be started on an uninterrupted course toward recovery.

LICENSE RECORDS BROKEN County Treasurer Mark Mumma ay order 1,500 more hunters' li-enses for Dauphin county, he said may order 1,500 more hunters incenses for Dauphin county, he said to-day, because of the record number issued so far this season. Mr. Mumma was furnished by the State with 10,000 licenses, the largest number ever issued to the county, but he-believes he will need at least 1,500 more. So far this season 7,147 licenses were issued as compared with 5,337 during the same period in 1918. With the deer and rabbit seasons soon to open it is anticipated that another big rush will be made to secure licenses. A number of women have secured tags, while others got them for their husbands. At times the crowds of applicants became so large that it was necessary to line them up into the corridor on the second floor of the courthouse. Many men took out five or six licenses at a time for their friends.
