

GONDORF HELD SECOND TIME FOR MISUSE OF MAILS

Tried to Defraud Western Man of \$40,000 Is New Charge

Cincinnati, Oct. 21.—Frederick Gondorf, alias Frederick Grant, 50 years old, New York city, who, with John Connell, alias Curt's, San Francisco, and William Silva, Newport, Ky., was convicted in United States district court at Covington last April on a charge he had used the mails to defraud Frank Krueger,

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. It is very easily prepared, and really there is nothing better for coughs.

Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money refunded. The Pinex Co., Ft. Wayne, Ind.

DRINK HOAK'S GRADE A CLARIFIED PASTEURIZED MILK AND CREAM BOTH PHONES PENBROOK, PA.

Dauphin Deposit Trust Company MEMBER FEDERAL RESERVE SYSTEM Harrisburg, Pa.

West Hoboken, N. J., and was fined \$1,000 and sentenced to serve five years at the Federal penitentiary at Atlanta, Ga., again was arrested in the Federal court at Covington, Ky., yesterday by Deputy United States Marshal Robert Phillips.

A warrant charging Gondorf with having used the mails last March at Pine Bluff, Ark., to defraud M. Coy, Kirtsville, Ky., of \$40,000, was read to Gondorf, as he, with Connell and Silva, entered the district court room for hearing of a second count in the indictment on which the three men were convicted last spring. The warrant was signed by Assistant United States Attorney Charles C. Bell. Gondorf denies having been in Arkansas in 25 years.

American Troops Will Not Be Used as Foreign Police Until Peace Is Ratified

Washington, Oct. 21.—American troops will not be used to police Europe or any other country for which the plebiscite is proposed until the treaty of Versailles has been ratified by the Senate, Secretary Baker announced today.

Mr. Baker's ruling was in reply to a request for the information on this point which had been received at the department from General Taylor H. Bliss, of the American Peace Commission.

Mr. Baker pointed out that should the Senate adopt a reservation to the Treaty declaring against American participation in the police duty overseas, none of the forces could be so used, and that, consequently, none of the troops would be moved from Coblenz until the Senate had acted.

Mr. Baker denied published reports that the message from General Bliss contained a protest against the use of American troops for such police duty.

Progress in Surgery Adds Fifteen Years to Average Human Life

New York, Oct. 21.—Progress in surgery and medical therapeutics since the Civil War have added fifteen years to the average human life, Dr. William Mayo, of Rochester, Minn., told the ninth annual American Congress of Surgeons at the Waldorf Astoria Hotel.

With continued progress, he added, and aided by the elimination of liquors and other vices, fifteen years more would be added.

Dr. Mayo deplored the increase in smoking, both by men and women, asserting that it had caused an increase in cancer.

Reliable Method of Hair Care

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthox (which you can get at any druggist's), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the soft richness of natural color, also a fluffiness which makes it seem much heavier than it is. After canthox shampoo, arranging the hair is a pleasure.

MEXICAN OIL DECREE CAUSES SENATE FIGHT

Sharp Conflict Being Waged Over Nationalization of the Lands

Mexico City, Oct. 21.—A sharp conflict is being waged in the Mexican Senate over the nationalization of oil lands as provided in the decrees of President Carranza which were intended to put into effect article 27 of the Mexican constitution. These decrees have been the object of bitter attack by the foreign oil interests which declare that both they and article 27 of the constitution would be confiscatory. Disappointed over the inactivity of the Chamber of Deputies which has delayed action on the nationalization question, the Senate brought up a new initiative based on that of the president but differing from it in the vital points that it should not be retroactive. If adopted this law would not nationalize the oil lands to which the title was perfected before the present constitution became operative which was on May 21, 1917.

Complications arise. Debate on this measure, however, soon became complicated as a result of attempts to include in it a complete redrafting of the 27th article. In the Senate discussions, Luis Cabrera, secretary of the treasury, and Leon Salinas, sub-secretary of industry and commerce, have presented the government's side in support of nationalization.

Secretary Cabrera also is quoted in newspapers as asserting that the Senate in wasting time in discussing the oil question since the oil interests would not be satisfied with the Senate's decision.

The foreign oil companies have brought suits in the Mexican courts to prevent the presidential decrees from taking effect, and these have been appealed to the supreme court. Secretary Cabrera has opposed the suits in the Mexican courts, in cases seemingly to delay action until the executive department of the Mexican government and representatives of the oil interests can reach an understanding. What, if any, progress has been made toward reaching such an agreement is unknown.

Soldiers Attack Hall Where German Opera Was Being Staged

New York, Oct. 21.—Despite decision by Mayor Hylan that German opera should not be given in New York until the Peace Treaty is signed, "Die Meistersinger" was presented in German at the sixteenth theater last night while thousands of soldiers, sailors, marines and civilians fought with the police in an attempt to reach the theater and stop the production.

Several shots were fired as the former service men time and again charged the police lines or laid down a barrage of bricks, stones and other missiles in an attempt to force their way through.

The final curtain rung down just before midnight, and a strong cord of police was thrown around the theater to prevent attacks on those leaving the building. The audience fled out slowly, and there was little or no disturbance, although fights broke out spasmodically in a wide area. None of them was within a block or two of the theater.

Clemenceau's Ideas Concerning Clergy Undergo Evolution

Paris, Oct. 21.—Premier Clemenceau's former hostility to priests and anything religious is well known, but the old premier has undergone an evolution in his ideas concerning the clergy. M. Clemenceau's home in the Franklin is immediately adjacent to the building occupied by a religious community, the fathers of St. Louis, who boast of a wonderful garden with a majestic plane tree, the huge leave of which completely darkened the window of the premier's private office. Clemenceau, in a note to Father Tregard, intimating the removal of the plane tree would be greatly appreciated. The priest did not reply. Clemenceau's note still remained and Clemenceau renewed his request. Finally the priest called upon the premier.

"Please do me the favor of having this tree removed," pleaded Clemenceau. "It obstructs my vision of heaven."

So pious a wish could not remain unanswered, and the tree came down.

New York Claims Millions in Taxes From Wealth of Astor

New York, Oct. 21.—The State of New York will attempt to collect an inheritance tax amounting to millions of dollars from the \$50,000,000 estate of William Waldorf Astor, who died Saturday in London.

The attempt will be fought by Charles A. Peabody, attorney for the Astor interests, who stated that Viscount Astor had transferred his entire property to a trust company, as trustee for his two sons, before his death.

ESTATE IN TRUST London, Oct. 21.—Representatives of the late Viscount Astor, whose sudden death occurred Saturday morning, say that his demise will not disturb the Astor estate in any way, as it is operated as a trust. Viscount Astor created a trust quite recently for the future management of the property, it was stated.

State Directors of Poor and Charities Meeting at Butler

Butler, Pa., Oct. 21.—Two hundred delegates from all parts of the State attended the opening session here last night of the annual convention of the Pennsylvania Association of Directors of the Poor and Charities and Corrections. Albert P. Roderus, Pittsburgh, president, presided at a short business session which was followed by a public reception. The convention was welcomed to Butler by Mayor Joseph A. Hetman, the response being made by Oliver P. Bohler, Philadelphia, who presided at the meeting to-day at the County Home here.

Phila. Drivers Strike Is Blamed on I. W. W.

Philadelphia, Oct. 21.—I. W. W. agitators are blamed for the strike of team and truck drivers, which yesterday paralyzed transportation of the city's food supply. The strike threatens to result in an embargo on all freight shipments into the city by the railroad administration. Two men were injured and four strikers were arrested during 'the day's activities by pickets of the strikers.

The entire police force has been called out. All leaves have been canceled. Every effort will be made to prevent a serious shortage in food resulting from the strike. Superintendent of Police Robinson said yesterday policemen would be placed on every wagon used in the delivery of food.

Urge Bishop Garland to Decline Appointment

Philadelphia, Oct. 21.—Thirty-two Protestant Episcopal clergymen of Philadelphia sent a message to Detroit urging the Right Rev. Thomas H. Garland, bishop of the Diocese of Pennsylvania, to decline the nomination as bishop of the missionary district of Utah to which he recently was named by the Episcopal convention. The clergymen, in their telegram, stated they believed the bishop could serve the Church to a greater purpose in his present position or in a "more definitely organized diocese."

Bishop Garland is to appear before the House of Deputies to-day to announce his decision.

Trees purify the air. Plant one in front of your home on Arbor Day.

GERMANS MUST BUY AMERICAN COTTON, THO HIGH

Only Way to Keep Expensive British Goods Off Their Market, Experts Say

Berlin, Oct. 21.—American cotton must be bought by Germans at any cost in the opinion of German textile experts, though they groan when they think of the prices. These experts estimate that American cotton will cost in Germany about nine and one-half marks for the German pound which is somewhat heavier than the American. This price is in part owing to the low exchange value of the German mark which before the war was normally worth about 24 cents.

Some little American cotton has been landed at Bremen, especially since it has become possible to send orders by wireless and thus avoid delay of five days or more in sailing by the way of England. Experts say the Americans are anxious to do business directly with Germany and to avoid any interference by the British but the German regulations limiting bills of exchange is a serious handicap for it prevents the importation of much cotton from America through fear of losses by exchange.

Nevertheless, the trade writers point out that English factories already are producing cotton goods in the occupied district of Germany and they agree that if Germany is not to be overwhelmed by expensive English goods which thus would obtain an opening foothold in German markets, Germany must have American cotton no matter what it has to pay.

MIXED VERDICT APPARENT IN CANADIAN ELECTIONS

Toronto, Ont., Oct. 21.—Indications early to-day were that the conservative government of William Hearst had been defeated at the polls to-day, while a mixed verdict seems to have been given on the prohibition referendum.

Ottawa has voted against prohibition, according to early returns, while in Toronto and Hamilton the vote seems to favor dispensing all kinds of liquors under government control. London has voted dry and the majority of reports from other towns and cities and from country districts, are piling up a dry vote.

15 From Steamship Sunk by Mine Arre Brought to Philadelphia

Philadelphia, Oct. 21.—Fifteen members of a shipwrecked crew reached this port yesterday on the steamship Fort Scott, of the International Freighting Corporation, none the worse, apparently, for their exposure at sea.

The men were seamen aboard the steamship West Arvada, which struck a mine off the Dutch coast on September 16. The vessel drifted helplessly for four days during which the crew made herculean efforts to save her cargo, and then had to flee for their own safety.

The scene of the accident was near Terschelling Lighthouse, off the Dutch coast, and the explosion of the mine witnessed by the light-house keeper who gave the alarm.

Before assistance reached the men, they arrived on the coast in the lifeboats and soon after were picked up by the crew of the Fort Scott, bound for this city from Rotterdam.

Wharf Workers to Meet in Tammany Hall Late Today

New York, Oct. 21.—John F. Riley, chairman of the longshoremen's strike committee and many of his followers, left a conference at City Hall last night after Mr. Riley

WOMEN, DRY CLEAN THINGS AT HOME

Save five to ten dollars quickly by dry cleaning everything in the home that would be ruined by soap and water—suits, coats, waists, silks, laces, gloves, shoes, furs, draperies, rugs—everything.

Place a gallon or more of gasoline in a dishpan or wash boiler, put in the things to be dry cleaned, then wash them with Solvite Soap. Shortly everything comes out looking like new.

Nothing fades, shrinks or wrinkles. No pressing needed. Do not attempt to dry clean without Solvite Soap. This gasoline soap is the secret of all dry cleaning.

A package of Solvite Soap, containing directions for home dry cleaning, costs little at any drug, grocery or department store. Dry clean outdoors or away from flame.

Kellogg's TOASTED CORN FLAKES. Never better than today—and millions know it, because millions demand the package guaranteed by my signature. W. K. Kellogg. Every grocer everywhere sells Kellogg's every day.
