Lowering of the wall of American

President Wilson and his Utopian ideas have sown in Europe. Do the people over the ocean think we are mad, or are they merely grabbing for everything in sight hopeful of getting mpre than they would receive had their requests been within treason? At all events, they must be made to understand that while Americans are capable of any sacrifice in the cause of right, they are not a nation of "easy marks" to be hoodwinked and robbed by any band of business buccaneers who may happen along.

ROOSEVELT DAY

The anniversary of the birth of this famous American should be for all time a national holiday.

We did not begin to appreciate the greatness of Theodore Roosevelt until one day last January when the world was startled by news that he had passed to his eternal reward. His figure loomed so large in every controversy, his nature was so combatte principles for which he stood of were involved, his life so tense and active that it was difficult to measure his tature as man and citizen while he lived. shirking does not consist in the

nous occupation for some set of muscles. Without doubt there is something in this. This is the same desire for occupation that manifests itself in drumming on a table, in whittling a stick, folding a bit of paper, fiddling with any small article at hand, or in twirling the thumbs. No doubt, too, it is at the bottom of a great deal of smoking. Men continue to light cigars or cigarets or to puff on a pipe long after the desire for the narcotic has been satisfied. Some men habitually smoke themselves past the power to appreciate or even enjoy tobacco.

Bealing Divorce Courts

[From the Atlanta Constitution.]

The stories of divorce court cases that appear in Britain and America are never to be seen in France. Yet in France there are now 80,000 cases before what are described as the "reconciliation courts." It is a long process through which the applicant for a divorce passes before he or she obtains a decree.
