### **LEAGUE TEAMS** TO DOUBLE UP

Nationals and Americans to First of Series of Games With Use Same Ball Parks; More Economical

Chicago, Oct. 24.—By process of amalgamation, two, and possible three, major league baseball plants will be dismantled next season, according to the most authentic information obtainable. This is to the effect that, by the time the curtain rises on the 1920 chamapionship season, Chicago will be the only city which will be asked to patronize two big league parks.

The proposition is to co-operate in St. Louis, Philadelphia and Boston along the lines adopted some time ago by the two major leagues in New York, where the Polo Grounds are occupied jointly by the National and American League teams, although the lease on the lot and title to the plant are held

The proposition is to co-operate in St. Louis, Philadelphia and Boston along the lines adopted some time ago by the two major leagues in New York, where the Polo Grounds are occupied jointly by the National and American League teams, although the lease on the lot and title to the plant are held by the owners of the Giants. For several years the two New York teams have played in the Polo Grounds without friction and have reduced the overhead cost to each club.

Double Up at St. Louis

Before another season opens it is more than probable the St. Louis National League club will be sharing the plant of the St. Louis Browns and the Philadelphia Nationals will be under contract to play ball in Shribe Park, the home of the Athletics.

In every other city except Chicago which has teams in the National and American leagues the baseball parks are located in the same section of the community. In St. Louis the same car line serves both parks, which are only half a mile apart. The Browns have a modern plant capable of handling anything except a world's series crowd without overflowing.

The Card's park is an old fashioned affair, part of which was burned this year and the rest of which cost a lot of money to keep in good favor with the building commissioners of St. Louis. Moreover, the ground on which the part is located is valuable as a quick asset.

is located is valuable as a quick asset.

Conditions in Boston

A ticklist situation exists in Boston, where both National and American League clubs are struggling to lift heavy overhead expenses, due to the cost of their plants. The American League club having built its plant several years ago, probably is in better condition as to its bonds than the National League team is. Moreover, its grounds are better situated for commercial purposes, being in the heart of "automobile row" and the Red Sox park is better adapted to baseball, because it is more compact than the plant occupied by the Braves.

than the plant occupied by the Braves. The latter with a seating capacity of more than 42,000, all on the ground level, is the biggest baseball plant in America, but it smothers the average crowd and stifles enthusiasm. It would be the rational solution, however, for the two Boston clubs to combine on the rental of the Braves' park and the disuse of the Red Sox ground.

That would give the National League control of the plants in New York and Boston and the American League of those in Philadelphia and St. Louis.

### **Hot Stove League Starts** With Some Trade Rumors

New York, Oct. 22.—One of the hot New York, Oct. 22.—One of the first sessions of the hot stove league has brought out the rumor of a trade brewing between the Glants and the Braves which will bring "Rabbit" Maranville and "Hank" Gowdy to the McGraw fold in exchange for Arthur Fletcher, Heinie Zimmerman and Hal Chase.

The New York management says that deal has not been made. "It is considered almost a certainty here that several of the Giant veterans will not make the trip south in the spring, as McGraw has a likely school of youngsters already trained to step into regular berths next year.

Boy His Class and Weight

Allentown, Pa., Oct. 23. — While
Bennie Leonard and Lew Tendler
are wrangling about a championship
match, there is a fellow up here in
Allentown who is ready to meet the
champion at any time, over any distance. Incidentally, Lew Tendler
flunked out of a match with this
same boy, Allentown Dundee,
Dundee has not lost a decision in
over two years. In that time he
has defeated such boys as Joe Tiplitz, right after Tiplitz knocked out
Chaney, Joe Phillips, Eddie McAndrews and a lot of other high-class
boys. Dundee has never been counted over. He has never been counted over. He has never been stopped
and he has boxed the hardest
punchers in the game. He does not
believe that Leonard's punches can
hurt him. Anyway, he will be well
pleased to permit the champion to
try, and there are several clubs in
this State, including the National A.
A., of Philadelphia, that are willing
to stage the contest.

Two weeks ago, Allentown Dundee
had little trouble trimming Billy
Richards, of Altoona, although
Richards was much bigger. He is
scheduled to box Barney Conway at
Johnstown, Pa., on next Monday
night. He is ready to fight any living lightweight, any distance, to
prove that he is the legitimate man
to meet Bennie Leonard.

Dundee will be the star attraction
at Harrisburg to-morrow night,
meeting Kid Thomas, of Philadelphia.

### Cheered Minister's Defense of Boxing

Defense of Boxing
Cheers of approval greeted a
defense of prize fighting made by
the Rev. R. J. Anderson at the
annual meeting the other day of
the Cheshire Free Church Councils, in London, England.
"Some people," he said, "have
been worrying lately over boxing
and have been holding prayer
meetings to try to put a stop to
it. The church must learn to
understand the needs of mentheir physical and mental well
as spiritual needs. We must encourage fellowship and recreation. We must realize that we
should treat men and women as

who live in the open and not in
