Department of Labor Report Shows They Cannot Afford Sufficient Food

Washington, Oct. 23.—Twenty per cent of the persons in the United States are undernourished, and an additional 30 per cent do not get sufficient food, according to the figures established by the Department of Labor, Bureau of Statistics, which has just completed an investigation of the family budgets in 1,500 cases.

Scientists have developed the fact that it takes 3,500 calories of food to keep the normal man in good health. The Department of Labor report shows a dietary analysis in the case of 83 families, selected at random in eleven representative cities; 21.2 per cent purchase less than 2,500 calories of food a man a day; 49 per cent less than 2,000 calories; and 74.5 per cent less than 2,500 calories. Allowing for considerable variation from the recognized standard of 2,500 calories a man a day, these figures indicate approximately 20 per cent of the families are purchasing food entirely insufficient for the maintenance of health, 20 per cent are on the border line between sufficient and insufficient nourishment, and 56 per cent in all probability are well nourished.

City Employees in Chicago Form Old Clothes Society to Fight Cost of Living

Chicago, Oct. 23.—The Chicago Old Clothes Society was organized by clerks in the City Hall here with "objectives" in each of the principal departments of the municipal government. The object is to glorify the wearing of patched, frayed or shiny suits, soft collars, resoled shoes and rivivified neckties as a means of combatting the high cost of living. The society is said to have had its inception in an Associated Press dispatch from London relating the perturbation of fashionable English tailors over the growth of "old clothes leagues" in the British Metropolis.

Don't Be Bald

How to Make Hair Grow Strong, Thick and Lustrous. Few of us get bald in a day and hair is thinning when our Parisian sage is a most efficient hair invigorator, but to quickly stop any further loss of hair and promote a new growth it must be rubbed into the scalp so the starved hair roots can really absorb it and get the vital stimulation so badly needed. You will surely be delighted with the first application of this good hair and scalp stimulant and feel 100 per cent better. Parisian sage is not expensive. It's a scientific preparation that supplies hair needs—a clean, non-sticky, anti-septic liquid that is sold by Kenesedy's Drugstore and all good druggists everywhere with guarantee or money refunded. Good looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, lifeless hair and finally baldness, while a little attention now should insure thick and lustrous hair for years to come. No matter what your hair troubles try a Parisian sage tonight—you will not be disappointed.

Beauty Answers

By MADAME MAREE

THERE are many things that will remove superfluous hair—but many of them so irritate, burn and red-den the skin as to make it a sight to look upon. It is no longer necessary to resort in such a savage manner. Superfluous hair can now be removed safely and never fails to re-grow every hair so thoroughly that not a vestige of it remains. There is only one thing that will do this, and that is sulfio solution. This can be obtained from any druggists for one dollar. The hairs are merely moistened with it for a few moments, and then the hairs are seen literally to wither and dissolve away and are wiped off, leaving a skin absolutely perfect, spotless and smooth. This is the sensible method, and no matter how sensitive the skin, or how thick the hair growth, it never fails to remove the hairs completely and thoroughly.

MISS T. O. C.—You will be surprised at the results if you will use Formula for brightening the skin. I can promise you really and truly an exquisite complexion in a mighty brief time, with a few applications of this cream at home yourself and use this cream in the world to equal it. Now get from your druggist one ounce, 50 cents worth, of zintone and mix with two tablespoonfuls of glycerine in a pint of water. This makes a rich, satiny cream. Use it freely every day—and you will have your dream come true.

MISS ANXIOUS—A remarkable preparation to prevent excessive perspiration in the armpits is hydrolyzed tannin. It is absolutely safe, keeps the armpits naturally fresh and dry, and you will have no more gowns ruined because of the odor of perspiration and your store can supply you. 50 cents' worth will last many months. It also destroys the odor of perspiration and other objectionable body odors.
