It also gives me great relief from asthma, from which I suffer in winter-time, as you know here we have it so rainy instead of snow, as back East, etc."

Bolsheviki Considering Evacuation of Soviet Russia, Reports Say

London, Oct. 24.—The Bolsheviki are considering the evacuation of Soviet Russia, according to reports reaching General Denikin, a wireless dispatch received to-day from his headquarters in Tashkent. The reported plan is for the removal of the cabinet to Tashkent, after the abandonment of Moscow, and the withdrawal of the troops on all fronts to Turkestan.

Reports similar to the foregoing reached Copenhagen on October 14 from Helsinki. One dispatch predicted that if Tula, 129 miles south of Moscow, were taken the Bolsheviki commissaries would abandon their present capital and retire into Turkestan. Recent reports from General Denikin's front announced that the Soviet forces had begun to fortify the suburbs of Tula, War Minister Trotsky having declared that a general battle must be fought outside that town.

Simple Home Remedy Advised For Rose And Hay Fever

Anyone Can Make a Pint For Trifling Sum and Used in Time May Prevent Annual Attack

"No matter how severe your yearly attack be, No matter how distressing or humiliating—its intensity can be reduced to a harmless, mildness," says a Kentucky druggist who believes from what he has seen that this simple home-made remedy is a most important discovery.

He has seen the most severe and apparently unconquerable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity. People who want to try this new treatment can make a pint in a few minutes.

Pour one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled. Gargle daily as directed and sniff or spray the nostrils twice daily.
