NEWPORT WILL HONOR MEN WHO SAW SERVICE
Welcome Home Celebration to Fittingly Mark Part Men Played in War
Newport, Pa., Oct. 24.—Two hundred and thirty-nine soldiers, sailors, marines and members of the nursing corps, residents of Newport and immediate vicinity, will be fittingly remembered in the welcome-home celebration of the borough, which will open to-morrow and continue on Sunday.

Decorations are rapidly being completed to-day and the borough has a most attractive appearance. The committee in charge of the celebration is energetically completing its arrangements to-day, despite the unfavorable weather. The borough streets are in bad condition, but Newporters are not letting a little thing like that deter them in their efforts to give honor unto their men and women.
Of the 239 persons who are to be honored in the big two-day celebration, eight are members of the

nurse corps, and they promise to have an important place in the celebration. Of the remainder, 159 men who served in the Army, Navy or Marine Corps came from the borough proper, while the others came from the immediate neighborhood.

Five Met Death
Five men of the total number who went into the military service are dead from various causes. Fitting arrangements are being made to honor their memory. These five are: Harry C. Arndt, Paul Fleisher, Leroy N. Reynolds, Harry E. Rhoads and William H. Saylor.

The celebration will get under way to-morrow morning at 11 o'clock, and the final event on the big program will be started at 7 o'clock on Sunday evening.
One great holiday has been declared by the entire borough and few, if any, business establishments will be open that are not absolutely necessary for the accommodation of the public. Even subdivision 5 1/2 of the Pennsylvania railroad has declared a holiday, so that employees might have the opportunity of taking part in or witnessing the celebration. Only half-favorable weather is needed to assure a tremendous success.

The opening event will be staged in the Photoplay Theater, starting at 11 o'clock on Saturday morning. There a lecture will be given by Dr. Francis D. Patterson, chief of the Division of Industrial Hygiene and Engineering, Department of Labor and Industry, emphasizing the "safety-first" movement. The film, "The House That Jack Built," will be shown. This meeting has been arranged under the auspices of the Pennsylvania railroad.

TO AUCTION OFF AUTOMOBILES
Rummage Sale For Polyclinic Is Flourishing Despite the Rainy Days
There isn't a thing under the sun that anyone wants for personal or home use, but can be found at the Polyclinic Hospital now going on at 108 South Fourth street.

Crowded? Well, it surely is. Some of the automobiles will be auctioned off. Really good machines, too. One is a five-passenger Overland, and the other an electric car. Now's the chance of a lifetime for someone to get that car they've been wishing for so long, and help the hospital, too.
More donations are needed. Persons having anything at all they can get together this evening as they can get to Mrs. Koster, 230 Woodbine street, Bell 3641 and they will be called for.

Public Speaking Club to Organize at "Y"
The organization meeting of the Central Y. M. C. A. Public Speaking Club, will take place in the assembly room this evening. In speaking of the club Robert B. Reeves, general secretary said: "The club is an assured success by reason of the fact that a number of prominent business and professional men are already enrolled. It is interesting to note the difference in the ages of the men taking the course. Successful businessmen sit alongside of the young college fellow who is just starting on his career but who realizes the need of such a course. A friendly rivalry has sprung up between the Public Speaking Club and the Salesmanship Club. While the Salesmanship Club has a larger enrollment at present, their lead is being seriously threatened. Of course, the enrollment of the Speaking Club must necessarily be limited as in a course of this kind it is essential that individual attention be given."

The overweightness is the food that our stomachs convert the food we eat into fat because there is not enough oxygen in the blood to produce a proper combustion to destroy the excess fatty tissue.
