

APPROVE COURSE OF GARY AFTER HE ASSAILS PARLEY

Steel Institute Indorses His Stand; Criticises Makeup of the Conference

By Associated Press
New York, Oct. 24.—More than 1,500 members of the American Iron and Steel Institute at a meeting here to-day unanimously adopted a resolution endorsing the stand taken by Elbert H. Gary, chairman of the board of directors of the United States Steel Corporation, at the National Industrial Conference at Washington. The resolution was carried following a speech by Mr. Gary and its adoption was marked with an ovation to the speaker which lasted for several minutes.

Criticises Makeup
In his speech Judge Gary criticized the makeup of the Industrial Conference. He said that in the employers' group there were several, "some of whom at least should have been with the labor group." In regard to the public group, he said that thousands of vocations, professions and other lines of industry had been overlooked, "all of which are more or less affected by the cost of production, the expense of living and, therefore, the control and conditions of both labor and capital."

Unorganized Labor
In regard to the labor group, the head of the steel corporation objected that there was no special representation of unorganized labor. "The same mistake seems to have been made," he commented, "by a large portion of the public that was made throughout the war, namely, that organized labor really represents workmen or wage-earners, generally, notwithstanding that, as a matter of fact, at least eighty-five per cent. of the total are non-union—not members of any union or organization."

Stamp Out Bolshevism
Referring to radical agitation, Judge Gary said that much had been made public lately about the attempt to spread the doctrine of Bolshevism in this country. "All of us have known for some time," he added, "that this disease is persistent and that there has been some inoculation in the best of countries. Still we deny that there is danger of serious trouble. There is only one way to treat this disease, and that is to stamp it out, to expose it and give it no chance for development. In this free country there is no room except in the prisons for the anarchists, the Bolshevists or other individuals who seek to substitute the rule of force for the rule of law and reason."

The Resolution
The text of the resolution adopted follows:
"Whereas, Elbert H. Gary, president of the American Iron and Steel Institute, has rendered to the American people and the American Iron and Steel Industry, a service of inestimable value by his course as a representative of the public in the Industrial Conference at Washington; therefore be it

Resolved, That the American Iron and Steel Institute assembled in its semi-annual meeting hereby records its unqualified approval of Mr. Gary's firm stand against any infringement of the right of the individual in labor or in business, a right fundamental to American industrial supremacy as well as to American liberty;
"That it admires the vision and courage enabling him to discern and effectively oppose the radicalism injected into trade unionism by unscrupulous leaders, an element especially dangerous under present conditions when world-wide unrest has created an opportunity for agitation aimed at the perpetuity of the institutions under which our industries attained their efficiency and prosperity."

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

FREE TO ASTHMA SUFFERERS

A New Home Method That Anyone Can Use Without Discomfort or Loss of Time.

We have a new method that controls Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as occasional or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it today.

Hospital Supplies For Mountaineers Will Be Prepared

New York, Oct. 24.—In an answer to an appeal from North Carolina for surgical dressings and hospital supplies for needy mountaineers there, the Churchwomen's League for Patriotic Service has organized a hospital committee which will begin work immediately to prepare dressings and bandages. It was announced here to-day. The Churchwomen's League is a new women's organization of the Episcopal Church, one of whose important

duties will be to assist in the nationwide campaign for workers and funds which the Episcopal Church will launch.
The new committee, headed by Mrs. Charles Braman, of this city, will organize several different units in New York for the purpose of supplying North Carolina with the

necessary hospital supplies. Church units which have remained intact since the armistice will be put to work again at their old job of rolling and cutting, at which the women became so proficient during the war, and new groups will be formed. Lessons will be given when needed.

Advises German Officers to Seek Mine or Farm
Berlin, Oct. 24.—Lieutenant-General Albrecht, formerly commander of the border defense troops in the northeast advised the officers of his

command on the occasion of their demobilization, to go to work in the mines or on the farms.
"Everything in Germany," he declared, "is waiting for the celebrated great man who can help. Better not wait for him, gentlemen."

"Be Sure of Your Store"

What Are You Looking For "Good Clothes" or Price?

Is price or quality the most important? Some men overlook the importance of high quality in clothes in seeking for low prices. They forget that the real cost is not based on the original price, but on the service the clothing gives

Clothing costs too much these days to take any chances in buying poor stuff and you can't get "good clothes" unless you spend enough to assure you of good tailoring, linings, and fabrics, as well as the looks—that's half the trouble now-a-days, unscrupulous manufacturers are putting it over on the public by making adulterated fabrics, of course they look good for a short time, then comes the penalty, because you didn't buy clothes in the right store. When you want good clothes come to Doutrichs for
