CURZON WILL SUCCEED BALFOUR

Latter Quits After Nearly Half Century of Public Service

London, Oct. 24.—It is officially announced that Earl Curzon has been appointed foreign secretary in succession to Arthur J. Balfour. Mr. Balfour retires after almost half century of public service, hav-ng first taken his seat in Parlia-

ment in 1874. His connection with the foreign policy of the British empire was established almost immediately, as he was appointed privata secretary to the Marquis of Salisbury, then secretary of state for foreign affairs, in 1878, and he was a member of the British mission under Lord Salisbury and Beaconsfield at the Berlin conference in 1878.

A few years more saw him advanced to a seat in the Cabinet as secretary for Soctland in 1886. He became leader of the House of Commons in 1891 and prime minister in 191902.

It was recently reported in London that upon his retirement as foreign secretary, Mr. Balfour would be created Earl and would succeed to the United States when the latter had finished his mission in this country.

**Eggs and Butter Go

Up Two Cents in 24

Hours in New York

New York, Oct. 24. — Eggs and butter were quoted in the markets yesterday two cents higher than at Wednesday's opening. The quotation on fresh white Leghorn eggs was 79 cents and fresh browns 77 cents. Storage grades are the same as Wednesday's, 58 cents per dozen tetail. Western eggs are quoted from 65 to 77 cents, but the largest sellers are New York State eggs, which are critished as "strictly fresh," or "baby eggs," and known as "the best white Leghorn eggs as 3 strictly fresh," or "baby eggs," and known as "the best white Leghorn eggs are quoted from 65 to 77 cents, but the largest sellers as "strictly fresh," or "baby eggs," and known as "the best white Leghorn eggs are quoted in the markets was 79 cents and fresh browns 77 cents. Storage grades are the same as Wednesday's, 58 cents per dozen tetail. Western eggs are quoted from 65 to 77 cents, but the largest sellers are New York State eggs, which are closed the following from the first of the United States when the latter had finished his mission in this country.

Innocent of Treason, Caillaux Tells Senate

Paris, Oct. 24.—Joseph Caillaux, former Premier, appearing before the Senate court yesterday, protested his innocence of the treason charges against him.

Caillaux declared his life policy had been dictated solely by his desire for the welfare of France. He demanded either an immediate trial or provisional liberty.

JOHN M. HICKS DIES

JOHN M. HICKS DIES
Greencastle, Pa., Oct. 24.—John
f. Hicks died here at the home of
his son, Samuel Hicks, yesterday
horning. He was born in Claylick
had was aged 78 years and 10
honths. He was a member of the
hirst United Brethren Church.

"Influenza left me in a terrible run-down condition," said Joseph S. Tustin, 1106 N. 24th St., Camden, N. J. "Stomach trouble, gastritis and nervousness persisted in hang-

and rervousness persisted in hanging on.
"I commenced to build right up, however, when I began taking Tanlac. I eat good, my food assimilates, my nerves are quiet and I sleep fine. Tanlac is a wonder remedy."

Tanlac is not only valuable as a combatant against disease epidemics by strengtheming and building up the system so that it can ward off disease, but restores the strength, appetite and nerves of the convalescent. The genuine J. I. Gore Co. Tanlac is now sold here by all leading druggists.

Big Future in Sugar

New York, Oct. 24.—The steamship Panama of the Panama Railroad Company arrived here from
Cristobal and Port au Prince, Haiti,
with 136 passengers aboard and a
3,275 pound cargo of sugar in the
hold.

Major W. W. Buckley, for the
past two years Marine Chief of Police of Port au Prince, said that the
efforts of the Marine Guard in Haiti,
in co-operation with 2,500 native
constabulary, had proved effective
in subduing the Haitian lawbreakers and driving the bandits back
into the hills.

The possibilities of great development in sugar production by American interests in Haiti were described
by F. Henry Berlin, another passenger on the Panama, who has been
interested for many years in engineering projects in Haiti. He said
that the climate was idead for sugar
raising and that 100,000 bags were
produced last year. Haitian sugar
men expected to double that amount
in 1920, he said; and to triple it in
1921. He said the people of Haiti
had accepted the American occupation philosophically.

Governor Sproul will leave Philadelphia late to-day and meet welfare commissioners morrow.

meet welfare commissioners tomorrow.

Co-operation between State authorities county and city inspectors
of weights and measures and representatives of fruit growers associations has been worked out so that
next year it is probable that peaches,
grapes, apples and other fruits in
which Pennsylvania growers are
specializing will be sold in uniform
baskets. A series of conferences
was held here this week at which
plans were gone over for a general
movement to secure adhesion to a
figure of the secure adhesion of the secure
states as possible. Similar steps are
to be taken in regard to potate
growers and others.

It is possible that the offering of
117 miles of State road construction
on which bids are to be opened on
October 30 may be the last for
this year, although plans are going
for bids next year. Much in regard
to the future offers for 1919 will depend, say officials, on the way bids
are received for the large mileage
on being offered. The Highway
Lepartment is in touch with a dozen
or more counties regarding construction of county highways next year,
these roads to be of construction in
keeping with State work and to join
main State highways.

First copies of the regulations
adopted by the Public Service Commission to bring all taxicabs, jitneys
and similar common carriers under
State supervision were rushed today by the Commission to holders of
certificates to operate such vehicles
so that they could have them in
their hands when the Philadelphia
hearing on taxicab and jitney conditions in Philadelphia begins. There
are scores of holders of such certificates, but there are probably hundreds who will come under the code

dreds who will come under the code. As fast as the names of persons running carriers without certificates are obtained they will be sent notices which will be followed by drastic action within a reasonable time. It is believed that the Commission will have quite a list of applicants for certificates next week.

Pennsylvania's new National Guard is not going to want for members of its tank battalion as a number of inquiries have already been made as to the way to get into the latest unit to be authorized. The tank battalion will consist of thirty-two officers and about 450 men and there are apparently plenty of men trained for such service in Pennsylvania, Camp Colt at Gettysburg being the chief eastern training point for the tank corps. The location of units and commanders will not be announced for some time.

Protests against the apportionment of cost for the abolition of the grade crossings at March street, Marcus Hook, was made before the Public Service Commission by the Pennsylvania Railroad. It was contended that the railroad was assessed too much. The operation will be a costly one through engineering

Industrial Board Down to Business

The State Industrial Board sat in an all day session yesterday at the headquarters of the Department of Labor and Industry in the Keystone Building, and completed its organization. The Board now consists of the following: Mrs. Samuel Semple, Titusville: Otto T. Mallory, Philadelphia; Dr. A. L. Garver, Roaring Spring, and James C. Cronin, of Philadelphia with Commissioner C. B. Connelley of the Department of Labor and Industry as chairman, and Fred J. Hartman as secretary.

The important work of the meeting was the division of the duties of the Board delegating the matters pertaining to women's law and child labor to Mrs. Semple; employment, industrial relationships to Mr. Mallory; publications and surveys of the Board and matters bearing on health and sanitation to Dr. A. L. Garver. Mr. Cronin was named as chairman of the Approvals Committee and Safety Standards Committee.

mittee and Safety Standards Committee.

Due to fatalities caused by the carelessness of employes in the use of matches in certain industries the following ruling was passed:

"Matches: No employe shall have in his possession at any time in any room or other portion of a building where ether is manufactured or otherwise handled, any match or other fame producing device, unless he is authorized in writing by the superintendent to do so in which case approved safety matches only may be used. A search for matches shall be made by some authorized person at least twice a week, at irregular intervals. The finding of a match or other flame producing device on the person of any employe not authorized to have matches in his possession, shall be cause for instant dismissal, and the fact shall be reported to the Commissioner of Labor and Industry.

There was once a politician, for-merly a farmer, whose reputation was such that a colleague, meeting an old man from his district, asked confiden-ially:

such that a colleague, meeting an old man from his district, asked confidentially:

"What do you think of him down your way? Is he an honest man?"

The countryman stroked his whiskers and smiled.

Another stroking of the whiskers, then he replied:

"Well, now, don't know that I'd gos of ar as to call him a llar, but those who know him down our way do say that when he wanted his pigs to come to their feed he had to get some-body else to call' em."—Boston Globe.
