MILLIONS FOR B. & L. ASSNS

Enormous Authorization of Capital Reported by State Officials in Recent Months

Capital authorized in incorporation of building and loan associa-

ation of building and loan associations or in returns filed in 1919 by such organizations for increases of stock represent more millions than covered by the authorizations of building and loan associations for the decade between 1905 and 1915, according to officials of the State government. Building and loan associations, which numbered 1,600 a few years ago, have increased by scores and Pennsylvania now has more such organizations than any other State, with Philadelphia having about four-fifths of its total number.

The increase in associations thus far in 1919 is greater than in the whole of last year and more than in either of the two preceding years. Almost all of the associations are now being incorporated with \$1,000,000 as the authorized capital stock, whereas half a dozen years ago \$500,000 as the authorized capital of \$10,000,000 has also come and \$5,000,000 associations are not uncommon. Eight associations are not uncommon. Eight associations chartered last week had an aggregate authorization of \$18,000,000.

an aggregate authorization of \$18,-000,000.

In addition, a number of associations have filed notices of increases of stock to \$5,000,000. The Provident and Crystal of Philadelphia, filed such notices a few days ago and the Mercantile advanced to \$2,000,000.

Pennsylvania is believed by men who have been in the woods and who have been observing game life to have more wild turkeys now than for 25 years, according to Seth E. Gordon, acting secretary of the State Game Commission, who has returned from some visits to central and southern counties. The weather conditions have been favorable for propagation and the State authorities have bought numerous kinds of birds and turned them loose to breed. In some sections where turkeys had been almost extinct this plan has resulted in notable increases. Flocks of as high as 25 birds have been reported from some counties to the Commission offices. The wild turkey season opens November 15 and lasts 15 days.

Governor Assails Bolshevik Ideas

In a vigorous speech at Chester n Saturday night Governor William conjunction with the United States on Saturday night Governor William C. Sproul declared that the great labor and social unrest in America was being caused by 5 per cent of the population, representing foreign countries. The Governor scored Bolshevikism and I. W. W.'sm in the most bitterest terms, when the Chief Executive delivered the keynote address at the unveiling of a bronze tablet at the I. O. O. F. Temple. The ceremonies were in honor of soldiers who paid the supreme sacrifice in the World War conflict and were members of Upland Lodge of Chester. More than 500 persons heard Governor Sproul deliver his message against un-Americans.

"We haven't filled our duty to our country," said Governor Sproul, "for lit's up to us Americans to finish the Job we started when the United States plunged into the war arena that memorable April day in 1917."

Continuing he said:

"There are to-day in America 55 per cent are trouble-makers and their agitation is the cause for the unrest in the industrial fields. We cannot tolerate the doings of these anarchists and red flag wavers. Bol-

sympathizers must be suppressed and it's the duty of every American especially our fraternal organiza-tions, to see that the roots of Bol-shevikism and I. W. W.'sm are de-stroyed."

Always Reliable--

What can anyone say that means more than these two golden words? We have reached the mountain tops of success by their application to our business; we knew that the goal we could possess was worthy of effort and pains and we had the patience and courage and ability to climb to the top.

Few men's clothing stores have forged ahead as has this "Live Store." Why? We are not attempting to answer this deep question, but so far as our success is concerned, we know that by sticking firmly to the proved methods we know to be fair and just to the customer at all times, has had much to do with our remarkable growth. We never promise anything we don't mean, yet we agree to do everything our customers ask of us. Our patrons realize this and are ready and willing to testify to the accuracy of this statement.

You've never known of a store so liberal, so willing, so absolutely certain of "making good" under all circumstances and conditions as this "Live Store," and we pledge ourselves now even more than ever to continue this same satisfactory square dealing and honest representation, and to give greater values in more generous assortments of nationally known standardized merchandise.
