

### POTATO WART TURNS UP AGAIN

Believed to Have Been Found  
in Center and Clearfield  
Counties by Experts

Discovery of potato wart in parts of Centre and Clearfield counties has caused the State authorities to tighten up their regulations regarding potato planting for next year and it is also possible that the 30 arrests made in the lower anthracite field for the growing of potatoes this year without State permits may be increased. State inspectors have been at work in the southeastern counties and in Lackawanna county and vicinity on a hunt for the wart, but have not discovered it. They have explained the plan followed in the Freeland district where a strict quarantine and general co-operation checked the disease and saved the crop this year. Quarantines have been established in four places in Cambria county.

Over 100 bushels of immune potatoes have been received by the State from England for the growing of experimental seed potatoes which will be distributed for next year's crop. This work will be directed by Dr. J. Sanders, head of the bureau of plant industry, who says that there are twelve varieties which have been found immune in England. The seed potatoes from the immune varieties will be distributed to parts of Luzerne, Carbon and Schuylkill counties.

State authorities have called attention to the damage done by the grain moth, instancing how grain which weighed 50 pounds to the bushel when loaded in Cumberland county had been so eaten that it weighed only forty eight when unloaded after two weeks' freight trip. The supposed corn borer found in Erie county is not believed now to be the European variety although something like it has been found at Fredonia, N. Y.

### Don't Neglect Your Breakfast

The Fear of Indigestion Often  
Prompts One to Start the Day  
Wrong. Eat What You Like,  
Take a Stuart's Dyspepsia  
Tablet and You're  
Safe.

Breakfast offers many of the most savory dishes of all the things we eat. And yet more people than otherwise go without breakfast save a roll and cup of coffee for fear of indigestion. If you like a fried egg, or some buckwheat or sausage for breakfast go to it and follow with a Stuart's Dyspepsia Tablet. You'll have no trouble. The average person who neglects breakfast will be hungry before noon. Most men smoke to kill the appetite, or munch on something to carry on till lunch time. An empty stomach under these conditions is not storing up energy, but on the contrary, is susceptible to many influences that may work hardship for the next meal.

It is advisable to eat three good meals a day and digest them. If the stomach seems to be weak, to help it or give it assistance is the rational thing to do. Try a good breakfast and follow it with Stuart's Dyspepsia Tablets and you'll soon learn that regularity of meals follows a natural urality of meals. You'll find Stuart's Dyspepsia Tablets on sale in almost all drugstores throughout the United States and Canada.

### The Variety of Designs

in our collection of Monuments is such that we can meet almost any requirement, both as to kind and cost. We also make memorials of any description to order. You'll find our work excellent always and our service prompt and reasonably priced.

### RICH, RED BLOOD FOR SICK PEOPLE

Purify the Blood and You Will  
Learn the Joy of  
Living

If you are easily tired, nervous, fretful, pale-cheeked, dull-eyed, and seem to be growing weaker every day, or if you suffer from headaches, dizzy spells and sleepless nights, it's a sign that your system is not receiving enough nourishment—that your blood is thin, watery and impure.

The blood is the fuel of the body, and like fuel under a boiler that is pure and full of energy, supplies plenty of steam, power and life. But if the blood is watery and impure, it, like poor fuel, gives forth little energy and soon the wheels refuse to move. Start now to regain your health, your self-confidence and vigor by taking a little Novo San (new blood) 3 times a day.

Novo San, the new red blood builder, has been thoroughly tested and tried out by responsible physicians of large practice and remarkable results have been obtained, especially so in Skin Diseases, Rheumatism, Anemia, Nervousness, Puffy Nutrition and Weak and Run-down Conditions following Grippe, Fever and other Wasting Diseases.

One physician says "Whenever a person is weak and run down, pale, hollow-eyed and nervous, broken in health and spirit, Novo San is needed." Novo San can now be obtained at Geo. A. Gorgas, or H. C. Kennedy Drug Stores, in packages containing 12 days' treatment. Sold on the following guarantee basis—if you do not feel at least 50 per cent better after taking Novo San regularly according to directions for 12 full days, return the box to your druggist and get your money.

### MAKING PLANS FOR CONVENTION

Officers of American Legion  
Will Establish Quarters  
at Minneapolis

New York, Oct. 29.—In order to complete arrangements for the first national convention of the American Legion which will be held in Minneapolis on November 10, 11 and 12, national headquarters of the legion will be established this week at the Hotel Radisson, Minneapolis, in charge of Franklin D'Olier, chairman of the national committee on convention arrangements, and Eric Fisher Wood, national secretary. Henry D. Lindsay, chairman of the joint national executive committee, who will preside at the opening sessions of the convention, will arrive on next Monday.

Advance offices have already been opened in Minneapolis by Lemuel Bolles, assistant national secretary, who has charge of the allotment of rooms and all arrangements for railway transportation of the delegates on the basis of reduced fares granted by the United States Railroad Administration. Plans for the reception, accommodation and entertainment of the 2,500 delegates and alternates representing approximately 1,000,000 members of the legion, who will attend the convention, have been perfected by a special committee headed by Milton J. Foreman, of Chicago, chairman of the Paris executive committee, and Frederick B. Wells, chairman of the Minneapolis convention committee.

This first convention of the American Legion for ex-service men and women, the future of war risk insurance and soldier land-legislation will be presented for action. Matters of organization detail which have been held in abeyance since the Paris and St. Louis meetings, also will be determined. These include the election of permanent officers, adoption of permanent policies of organization, location of national headquarters, membership questions of eligibility, nomenclature of local post, state and national officers and many other details.

Each state branch will send to Minneapolis two advance delegates, a chairman and a secretary, who will arrive not later than Friday noon, November 7. The chairman from the various state delegations will form an advance committee similar to that which met last May in St. Louis three days before the St. Louis caucus. This advance committee will be called to order by Henry D. Lindsay, national chairman, in the Hotel Radisson, on November 7, to consider a program for the convention and to discuss other important preliminary matters. The state secretaries will meet at the same time and place to receive the hotel accommodations allotted to their respective delegations and to discuss matters of credentials, seats in the auditorium and badges.

### Paderewski Busy Man at Conference

Paris, Oct. 29.—Premier Paderewski of Poland was perhaps the busiest man at the Peace Conference when Polish questions were under discussion. For four days and four nights the Polish Premier worked like a Trojan. Entering his chamber on the evening of the fourth day he noted that the volume of accumulated correspondence had become very great; letters from friends, business men, diplomats, relatives, lying unopened on his desk. One envelope persistently caught his eye; it was marked "Urgent" and "Personal." He opened it, snatched pen and ink, and hurriedly replied to it.

The letter came from a New York musical enthusiast who wished to know whether the "Andante" of the Second Symphony should be rendered with or without the pedal. "That was sacred," relates Paderewski to the *Elclair*, "it could not wait."

### Strike Committee in Secret Session

Pittsburgh, Oct. 29.—The national steel strike committee yesterday went over the situation in a session behind closed doors which lasted several hours. No announcement was made concerning the business transacted nor anything to indicate what the committee thought of the progress of the strike.

### Uses Crime Figures as Basis For Putting on More Policemen

With the Americans in Germany, Oct. 29.—The German government is using statistics on the increase of crime in Germany as the basis for the formation of numerous units of security police, as they are called. They are to have a purely military interior organization, cloaked outwardly, however, as police and instructed only with police powers. The intentions of the government, as voiced in the German newspapers, is to have these organizations as instruments of the police chiefs of the various cities without any connection with the military authorities. It appears, however, according to the information in the hands of the Americans, that these units are to be housed in barracks in order to be available in case of any concerted trouble. Companies are to be formed, each of 100 men, with a leader and a number of officers for each company.

### Both Big Parties Claim New Jersey by 50,000 and Up

Trenton, N. J., Oct. 29.—Both the Republican and Democratic state committees are claiming New Jersey for their respective party by upwards of 50,000 majority. The Democrats declare that Wilson's act of vetoing the wartime prohibition enforcement bill would help their candidate, Senator Edward L. Edwards, of Jersey City, an avowed "wet," and injure Newton A. K. Bugbee, the Republican candidate,

who has declared that prohibition is beyond the stage of state issues. Republican State Chairman E. C. Stokes said that President Wilson's veto message asserting that national prohibition, under the eighteenth amendment, was now a part of the fundamental law of the land, upheld Bugbee's attitude and repudiated Edwards' campaign to attempt to nullify the amendment.

### Strike of Chicago Trainmen Unauthorized, President Lee Says

Washington, Oct. 29.—Strike of trainmen in the Chicago switching district, called by local union leaders for Thursday unless certain wage

demands are granted "in full," would be "wholly unauthorized and without the sanction of the Brotherhood of Railway Trainmen," it was said here last night by W. C. Lee, president of the brotherhood. The proposed strike, Mr. Lee said, was "nothing more than an attempt to discredit the Brotherhood of Railway Trainmen."

Mr. Lee said two officials of the brotherhood attended the meeting held Sunday night and at which it was announced by local union leaders the strike was decided on. These officials, however, Mr. Lee said, had no knowledge of any decision to call a strike.

**BOY BREAKS ARM**  
York, Oct. 29.—Clifford Lincubach, age 11 years, sustained a broken arm while training in the Noel School building. The boy was turning a wheel when the sleeve of his sweater caught on the handle of the implement, and giving a sudden twist broke his right arm at the elbow.
