Berlin May Relieve Housing Situation by Renting Buildings

Berlin, Oct. 30.—There is a widespread demand that the former royal and princely palaces and cas-tles of this city be utilized to allay the need of dwellings during the coming winter by renting parts of them to people in need of homes. Mayor Wermuth has sent a telegram to the Imperial Dwelling Commis-sioner calling his attention to this situation.

The Commissioner, in reply, says there are in Berlin only six of these buildings, that are large and notable. New York, Oct. 30.—After William Randolph Hearst, publisher, had declined a challenge from Governor Smith to engage in public debate, the Governor appeared last night in Carnegie Hall and charged that the publisher's papers had attacked him because he had refused to let Mr. Hearst tell him what to do as chief executive of this state. Reviewing his political record, Mr. Smith defied Mr. Hearst 'to mention a crooked act that I ever performed, in public or private life." Asserting that fact in Hearst paper attacks on him had been "gravely distorted," Governor Smith charged that these papers were adding to the Nation's difficulty in suppressing the "spirit of unrest" and were making it difficult for the Governor t handle the situation.

MANY KINDS AND **COLORS OF MONEY**

Change Hands in Big Quantities at Budapest Curb Exchanges

Budapest, Oct. 30. — Many kinds of money are in circulation in this city. Blue money, that is, the money of the Austro-Hungarian Bank, is on hand in very limited quantities. Then there is good white money with a ten per cent. discount, and bad white money that is worth only one-fifth of its face value. Finally, there is green money, the five crown notes of the State Savings Bank, with a thirty per cent. discount. Curb exchanges have been formed where these moneys change hands in great quantities.

Budapest, where earlier a newspaper appeared every hour is living almost without newspapers of its own. The people satisfy their curiosity from the Vienna papers which are sold on the streets by thousands. They were forbidden for a time but now have been released, and the news yendors make tremendous profits and get four and five crowns for a single copy. The theaters that have reopened are crammed full.

Budapest is slowly beginning to recover and come back to life, under the protection of the Rumanian bayonet.

Extra Choice Building Lots \$59 Each

THE GREAT PLAN!

the lots in this sub-division There are no choice locations held out; there are no reservations for any purpose whatsoever. The lots you like are the lots you get, provided no one has beaten you

Every block is divided into building lots. Streets are being cut through. Property is restricted to desirable people. There will be a warranty deed given with every lot. The title is guaranteed, and even the taxes will be paid. You can build upon it; you can sell it; you can start a war garden on it at once; you can do what you please with it. You can go in family groups and get as much as ten thousand feet of it together.. Several families can buy together and own a whole block if they wish.

There is no limit that can be set to the value of this land when you people begin taking possession of it. No one in the world can forecast how great the growth of Harrisburg will be. We only know that Harrisburg today is cramped for room, and it must expand. Colonial Park is in the path of this expansion, half an hour from the center of the city.

Another Minute

Don't Waste get in touch with us immediately. You all know that Harrisburg is growing. Those of you who are new arrivals here know because

of the rent you are paying that the city is cramped for room. Those of you who are old residers realize that Harrisburg is expanding and that it must expand through its suburbs, the same as New York, Philadelphia, Chicago and other cities.. Harrisburg has developed but few suburbs; now it must develop them along the line of traffic facilities.

Procrastination is the thief of time and the destroyer of opportunity. You are offered here a mervelous opportunity to profit by the expansion of the city of Harrisburg. If you pro-crastinate, if you delay seizing this opportunity at once, it will be gone, and gone forever.

Depends upon your ability to look ahead. Millions of dollars of real money have been put in the pockets of lot purchasers, who a few years ago had the vision to see that Harrisburg was growing rapidly and who brought lots in the path of its expansion.

DO YOU REALIZE that new industries coming to Harrisburg have created such a demand for housing people as has never been known in the history of any city? Every available house in the city is occupied, and to rent a home is out of the question. Harrisburg can expand in only one way—that is through its suburbs. Colonial People solve the problem for you.

You are dealing with the actual owner of the property, not agents, and we refer you to any bank or business house in Harrisburg as to our financial responsibility, integrity, fair dealing and general reputation.

The layout and street arrangement has been approved by the City Planning Commission of Harrisburg.

The title to Colonial Park is perfect and is guaranteed.

If you fail to get one of these \$59 lots it will be because your neighbor beat you to it.
