

SECRETARIES OF Y. M. C. A. TROOP TRAINS TRAVEL TOTAL OF 9,320,000 MILES

New York, Oct. 31.—Nine million three hundred twenty thousand miles which is equal to 373 times around the earth, is the distance traveled by troop train secretaries of the Army Y. M. C. A., according to figures for a period ending October 15, issued by the Troop Train Department in a report just made public.

There were 206 trains carrying 113,300 men. In March the number of trains leaped to 618, with 338,800 men aboard. The high-water mark of the entire homeward movement was in July, when 877 trains moved with 433,500 men aboard. The average mileage was slightly under 4,000 miles per trip.

held at The Hague early in October. The Rev. Dr. Macfarland states that it is realized in Europe that many serious questions are unsettled and that they can only be adjusted permanently by the League of Nations, and that even then much time will be required before many vexing problems are removed.

Prussian Divorces Increase Since War

Berlin, Oct. 31.—Divorces in Prussia have increased notably since the war, according to statistics issued by the authorities. Only those

who apply to experienced attorneys and press for alimony and damages, ever collect, because financial compensation is not taken up at the divorce trial, and relatively few pursue the matter after the decree has been granted. Likewise the alimony is subject to taxation.

Sister Asks Court to Decide Brother Is Dead

Chambersburg, Pa., Oct. 31.—Whether Henry E. Keefer legally can be considered as dead is the

Influenza Made Heavy Inroads on Fur Trappers

Seattle Oct. 31.—Because influenza last spring nearly wiped out tribes of Eskimo and Indian trappers in the Arctic regions of Alaska and Canada, there will be little trapping it is said, in the Far North, for at least ten years, says reports received here.

Furs from foxes raised in captivity on fox farms, will be on the market in numbers, however, as the number of fox farms being established in Alaska and the Yukon Territory is increasing yearly.

Fur buyers will probably find consolation in the announcement that sealskin may be reduced in price during the next ten years. Year by year the United States Government's herd of seals on the Pribilof Islands off Alaska is increasing and the United States Bureau of Fisheries, which has charge of the herd, hopes to see the prices drop as the number of seals increases.

Lift off Corns! Doesn't hurt a bit and Freezeone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

"Cure Your Rupture Like I Cured Mine"

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Death."

His Remedy and Book Sent Free. Captain Collins called the seas for many years; then he sustained a bad double rupture that soon forced him to not only remain ashore but kept him bedridden for years. He tried doctor after doctor and tried all the latest results! Finally, he was assured that he must either submit to a dangerous and abortive operation or die. He did neither! He cured himself instead.

"Fellow Men and Women, You Don't Have To Be Cut and You Don't Have To Be Tortured by Trusses." Captain Collins made a study of himself, of his condition—and at last he was rewarded by the fact that he found a method that so quickly made him a well, strong, vigorous and happy man. Anyone can use the same method! It's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collins book, telling all about how he cured himself and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are FREE. They will fill out the coupon below and send it right away—now—before you cut down this paper.
