SOUND ADVICE THAT HAS
MADE MONEY FOR THOUSANDS
WHY TAKE CHANCES?
The public should take warning before parting with their money for
various oil stocks. While it is true
that many stocks are constantly enhancing in value, it is quite difficult to make the good investment unless you are posted. Let the Oil Press
aid you in making the right selection.
The October 15th issue contains a long
list of petroleum companies showing
their capitalization, par value of
stock and dividends they have paid.
This information will prove of interest to holders of oil stocks and othest to holders of oil stocks and othest. Every issue of the Oil Press is
brimful of, valuable data and anajutical reports of scores of oil companies operating in the great MidContinent and Texas oil fields; some
good, bad and Indifferent. The October 15th issue, together with map
showing the oil fields in a clearly defined oil area in which there has
never been a dry hole drilled, will be
sent free on request. Address Oil

BUY AN OIL LEASE

Ten dollars buys 5 acres Texas Field Ranger leases sold at 25c, now worth thousands per acre. Nuttle paid \$\frac{1}{2}\$ per acre and sold for \$\frac{1}{2}\$,000 per acre. Texas-Rainbow End now opening up shows same geological formation as proven territory. Leases here may jump any price with first well coming in. It's a speculation, but the kind of speculation that has made many small investors rich. The Fortuna Oil Company started in by several men pooling \$400 in leases—sold out recently for a million dollars. If you don't understand lease business, we will gladly explain all details. Remit \$10 for five acres. We send you legal lease form and keep you in touch with developments. Send name for free map and full information. Pecos Valley Company, 114½ N. Robinson, Oklahoma, Okla.
