

VETERANS ARE PROMISED MUCH BY NEW LEGION

Messrs. Doughboy, Gob and Devil Dog Advised to Sit Tight

That American Legion crowd is a bunch of dead ones. What are they doing for a living? What do you get for your money if you do join and fork over 50 cents? Some such thoughts as these have no doubt flitted through the minds of ex-service men who haven't as yet joined to those who know.

Chairman Fitzpatrick, of the entertainment committee sprung a few ideas at the meeting of Post 27 in the courthouse last evening, and there is a big surprise in store for Messrs.

New and Wonderful Hair Removing Secret (How to Get Rid of Roots and All)

The secret is out! Any woman who has ever had hair removed can now rid herself of this trouble absolutely, not only the surface hair, but the roots as well—by what is known as the "phaelactine process." The new method does away with numerous visits to the electrician or shaving at frequent intervals. Nothing like it ever known before. Get a stick of phaelactine from your druggist, follow the easy instructions, and have the surprise of your life.

You do the work in a few seconds, in your own home, without the least injury. The hair—roots come out before your very eyes, leaving the skin soft, smooth, hairless. Phaelactine is odorless, nonirritating, and so harmless you could eat it.

PIMPLES

How to remove them

You give a lot to get rid of those disastrous pimples, don't you? For you know how troublesome they are—how they spoil your beauty—how often they prove embarrassing.

Klearskin—soothing cream, prepared by the physician of the Kloster Laboratories, proves effective in the treatment of pimples, blotches and other unsightly facial eruptions. This cream contains a medicament of wonderful power, so wonderful that even a two-weeks' treatment will demonstrate its merit. Klearskin is harmless, greaseless and of the color of cream. It does not show on the skin and will not promote hair growth on the face.

Pave the way for better looks. Send \$1 for a large size jar of Klearskin and Dr. Russell's treatise, "Facial Blotches and their Removal." If you will send your druggist's name and address, we will include a trial package of Intes-tone.

ACCOUNTING IS GIVEN FOR YEAR BY RED CROSS

Many Hear of Great Work Accomplished by Loyal Women Workers

Harrisburg's Red Cross drive was opened last night with a meeting of all the workers in the Chestnut Street Auditorium at which Dr. Stockton Axson, national secretary of the Red Cross, was the principal speaker.

Workers early this morning began their canvas to enroll 48,000 members and \$30,000 in the third roll-call of the Red Cross. Every effort will be made to close the campaign by Thursday noon, but if the memberships are not secured by that time the campaign will be extended.

Colonel Rausch, delegate of Post 27 to the State convention, made his report on the actions there, and ended his report on the minutes. William C. Lutz, chairman of the membership committee, outlined his plans for the short membership campaign which will be waged, when the city will be canvassed for service men and women.

Sunday, November 3, has been designated by the National Executive Committee as American Legion Sunday throughout the country, and every clergyman has been requested to devote at least one of his sermons to the ideals for which the Legion stands.

\$6,000,000 IN PLACER GOLD

The value of the placer gold produced in Alaska in 1918 was about \$5,900,000. The decrease in 1919 was general throughout the Territory, except in the Copper River and Yukon districts and some of the smaller Yukon districts. The decrease was due mainly to curtailment of operations because of shortage of labor, high cost of supplies, and the fact that future conditions.

Local decreases were due also to unfavorable climatic conditions and to the depletion of some of the richer placers.

It is estimated by the United States Geological Survey, Department of the Interior, that about 574 placer mines were operated in the summer of 1918, averaging 150 per month during the previous winter, but many for only a part of the season.

About 3,000 men were engaged in productive placer mining in the summer and 613 in the winter. In addition several hundred men were engaged in prospecting or other nonproductive work relating to placer mining.

CELLULOIDITIS

"What makes you think he is half-witted?"

"He wants to go to California to give election lessons to moving picture actors!"—Cartoons Magazine.

LETTERS TO THE EDITOR

To the Editor of the Telegraph:

Permit me to give the address of the writer of this communication to use it. She wishes the address delivered June 4, 1919, at the annual meeting of the Illinois Federation of Women's Clubs.

The new conception of the leaders of the National Speech Movement, that to speak "American and not Uhuruicun," is the patriotic duty of the native not the foreign-born, is making a deep impression here, especially it is presented.

William Jennings, campaign chairman, issued final instructions last night, and told the workers to see every man and the thirty city clubs are connected with our churches, railroad and patriotic organizations.

It has been truly said that "had there been a Chapter strike, it would have been for longer hours and harder work. The men had gone to war, or were preparing to go, and the women resolved to go with them as far as they could. They rolled their hearts and hopes into their bags and packed and sent on their errand of usefulness.

Salve—All agencies of economy were evoked in war times and a salve committee was formed which in its collection of old metal, tin cans, etc., realized for the Chapter \$5,641.

This large production was made possible by the thirty-four splendid auxiliaries scattered throughout Dauphin and Perry counties and the cross-river towns of Cumberland and Perry, and the thirty city clubs are connected with our churches, railroad and patriotic organizations.

It has been truly said that "had there been a Chapter strike, it would have been for longer hours and harder work. The men had gone to war, or were preparing to go, and the women resolved to go with them as far as they could. They rolled their hearts and hopes into their bags and packed and sent on their errand of usefulness.

Two thousand families were cared for by its nurses and nurse-aids.

To serve one's own is the greatest happiness and therefore we feel a solemn pride in this record during a great emergency of real usefulness to our people in Perry, Dauphin and Cumberland counties as well as in the entire city of Harrisburg.

The reward of good work has ever been more work to do, and the most beautiful of all judgments you have had been faithful over a few things. I will make these ruler over many things," is being said to Red Cross workers to-day.

War taught us what we could do and the knowledge of our power to do good is to be used for a great peace program: Home service for our soldiers and sailors and their families, health centers and public health education and nursing.

Sewing and knitting for our local charities.

A Junior membership reaching out a helping hand to unfortunate children at home and abroad.

A large membership to assure our part in the great disasters of the world.

Therefore I repeat never was Red Cross more important than at this moment.

As long as illness, death, poverty, disasters and distress are to be combated, let us hold high the Red Cross standard, for it is a symbol acceptable to all, carrying as it does, the message of mercy and of hope.

The catalog is too long to print. Nor shall it be forgotten that large groups of women gave their time to clerical duties to membership and war fund drives and to motor corps work and the Red Cross.

The realization of many, that the entire city is concentrating on speech improvement, is achieving a new civic solidarity of purpose and of procedure. In working for the cause of "Better Speech For Better Americans," Harrisburg, as usual, is a medium of national progress.

Friends addressed me at the annual meeting of the Illinois Federation of Women's Clubs, June 4, 1919:

"It is expected that during the celebration of National Speech Week, there will be all over the land a rally to the standard of good speech."

Henry James has said that speech is the one thing in this wonderful civilization in America that we have not standardized.

"And he bunched to beat de band!" said a poor foreign-born woman who told how her son's friends were affected by the news of his death in the war. She was sick and voiceless, voiceless we had given her to express her emotions. Is not out duty plain to give these people not only "more American speech," but better American speech?" Will the foreign-born citizen have any respect for the proper use of a language which he hears so continually misused, abused and degraded?

Better American Speech Week as planned by the American Speech Committee of the Chicago Woman's Club, was celebrated last fall in 60 clubs, 30 schools in and about Chicago and in other clubs and schools throughout the state.

In the welfare department of many of the business houses, the "Week" was observed in most entertaining fashion. Later through our co-operation a class was formed by the floorwalkers in one of the large department stores for the study of better speech.

We are looking forward to a time when all of us shall feel the same pride in the speech that we have in fine clothes.

Better Speech Week resulted in the formation of clean speech clubs in several of the High Schools in Chicago.

"The Sanctity of Words" was the subject chosen for a sermon by minister in Chicago in the celebration of the Week.

The children in one school in Chicago, in an Italian district, wrote an original play in each grade on the Better Speech Movement, and gave it during the week.

Slogans in our splendid exhibit last year, the Best Speech Posters made by the school children, won not only the cup and the trophy, honor but to van and me."

Some of the slogans:

Do a credit in thought, in deed.

One language for a united people.

Strong speech befriends a solid mind.

Better speech, better informed citizens.

READER.

What Red Cross Has Done For Army and City

No annual meeting is of more importance than the one we have now, because our organization comes to-day one chapter of its history, a chapter which contains in its pages the records of our achievements fashioned by the whole-hearted and devoted work of Red Cross members throughout the community.

Great opportunity was afforded a group of people for concerted, stimulative and helpful work, and the record which follows in this paper shows that the Harrisburg Chapter of the American Red Cross measured up to the highest standard.

Co-operation Co-operation of the community was the greatest factor in our success. No business or professional man was too important or too busy to be available for service in the Red Cross. The public and private foundations showed that the Harrisburg Chapter of the American Red Cross measured up to the highest standard.

Workers early this morning began their canvas to enroll 48,000 members and \$30,000 in the third roll-call of the Red Cross. Every effort will be made to close the campaign by Thursday noon, but if the memberships are not secured by that time the campaign will be extended.

Dr. Axson explained that the campaign this year was not so much one to raise money as it was to bind the people together in an organization which must be made a "permanent institution."

In addition to opening the roll-call the meeting was held in connection with the annual session of the Harrisburg Red Cross. Mrs. Lyman D. Gilbert, the chairman, read her report, and the other officers submitted detailed accounts of the activities of the various departments, the work of the officers and directors were re-elected.

The membership of the Harrisburg Chapter of the American Red Cross in pre-war days was 177. In the first drive it reached 13,000. In second drive it reached 33,000. Now there has been an enrollment of 39,655.

If the American business men will aid us we will be able to do more for the Red Cross. We have been able to do much for the Red Cross because of the work of the women.

Membership Used Clothing—Two collections of used clothing were made for Belgium and the East with the result that our Chapter shipped many boxes and bales of warm clothing which reached in weight 84,000 pounds.

Linen for France—When a call came for linen for the hospitals of France there was a ready response and 30,000 sheets, pillow cases, towels and napkins were collected and carefully packed and sent on their errand of usefulness.

Salve—All agencies of economy were evoked in war times and a salve committee was formed which in its collection of old metal, tin cans, etc., realized for the Chapter \$47,553.

This large production was made possible by the thirty-four splendid auxiliaries scattered throughout Dauphin and Perry counties and the cross-river towns of Cumberland and Perry, and the thirty city clubs are connected with our churches, railroad and patriotic organizations.

It has been truly said that "had there been a Chapter strike, it would have been for longer hours and harder work. The men had gone to war, or were preparing to go, and the women resolved to go with them as far as they could.
