The world has long been familiar with the theological seminary to teach fledgling clergy how to shepherd their flocks, but it has always been taken for granted that no instruction was necessary for the members aside from the sermons and the Sunday school lessons. But present day ecclesiastical ideas are giving the layman powers and duties in the church almost as important as those of the clergy.

The nationwide campaign of the Episcopal Church to raise \$65,000.000 to enlarge and expand the scope of all phases of its activity at home and abroad is developing several new ideas in the application of religions. TO CONTINUE

Both Republican and Democratic leaders have declared that the results will have an important bearing on the presidential election next year.

United States Bone Dry

Although the League of Nations and economic issues were given prominent places in the platforms of the two major parties, they assumed positions relatively subordinate to the "law and order" issue advanced by Republicans in what proved to be the hardest fought state campaign in years.

Both parties had concentrated their efforts in the industrial centers. Richard H. Long, the Democratic opponent of Governor Coolidge, carried on a most vigorous campaign in these sections, appealing especially to the workers.

Drastic police regulations were in effect in this city, where State Guardsmen are still on duty as a result of the police strike. Gatherings of more than two persons were forbidden about the polling places. Troops and reserve patrolime were held ready for emergencies in districts known to contain many sympathizers of the striking policemen.
