Rea's Daughter to Wed; "Please Send No Gifts," Requested

Philadelphia, Nov. 5.—Miss Ruth Rea, daughter of Samuel Rea, president of the Pennsylvania Railroad Company, will be wed to Lieutenant Commander George B. Junkin, who was prominent in the capture of Vera Cruz in 1914, at her father's country home, Waverly Heights, Bryn Mawr, on November 10.

The wedding invitations sent out to-day bear the request "please send no gifts." Friends of Mr. Rea say that it is the father's desire to furnish his daughter with everything she may wish.

Commander Junkin was an ensign in 1914, when he led a company of bluejackets from the Utah in capturing the custom house at Vera Cruz. He was commended by Admiral Fletcher for his gallantry and was promoted.

320,000 Trucks to Prevent Tieup if Railroads Stop

Washington, Nov. 5.—In the event of a tieup of the country's railway transportation systems for lack of coal, 320,000 trucks will be available to the Government to help relieve the situation, says a report of the Council of National Defense now in the hands of Secretary of War Baker.

Mr. Baker called on the council for a statement on the available transport tonnage in the United States as a precaution against possible results of the coal strike. The report was presented to Mr. Baker yesterday and it shows that 20,000 army motor trucks are available. It estimates further that the Government can rely on private interests to furnish through methods of commandeering, 300,000 more trucks.

WORLD'S SUGAR OUTPUT DROPS

Production Down Fourteen Per Cent, Compared With 1913-14

London, Nov. 5.—A decline in the world's sugar production of about 14 per cent, as compared with the season 1913-14, was registered during 1918-19, according to figures issued by the official Board of Trade Journal. But for the increase in the Cuban output, from 2,600,000 tons in 1912-14 to an estimated 4,000,000 tons in 1918-19 the decline would have been much more serious, says the Journal.

The world's production of raw cane sugar, excluding the Indian crop, which is consumed locally, rose from 7,500,000 tons in 1913-14 to 9,700,000 tons in 1918-19, an increase of 2,200,000 tons. In the case of raw beet sugar, however, production dropped from 8,900,000 tons to 4,300,000 a decrease of 4,600,000 tons. On balance, therefore, there was a deficiency in the world's supply of sugar in the season just ended, compared with pre-war supplies, amounting to approximately 2,400,000 tons.
