## LEMOYNE PASSES THE \$7,000 LOAN

### Voters Give Proposition to Increase Debt Big Majority at the Polls

Lemoyne, Pa., Nov. 5.—Rallying to the support of firemen and the town council in their drive for adequate borough protection against fire, voters yesterday consented to increase the indebtedness of the borough \$7,000 to be used in purchasing a pump and chemical equipment motor truck, by an overwhelming majority. In the first precinct, of the 153 votes cast on the question, 113 were recorded for and 40 against. In the second precinct where 127 votes were polled 107 favored the loan and 20 voted against the increase in the indebtedness.

By supporting the firemen in this issue voters of the borough placed their home company in a class with some of the larger city organizations. With the \$7,000 a large pump and chemical truck combined will be purchased and the equipment will be an efficiency to some of the larger trucks used in Harrisburg. This equipment will enable the local fire-fighters to take the ordinary fires without asking aid from the city department.

Council in session in the school house to-morrow night will have to act on purchasing the truck. I. W. Applier, president of the fire company, in a statement last night, thanked the voters for supporting the issue. Mr. Applier declared that the firemen won the victory by their untiring efforts and deserve much credit for bringing about this protection for the borough.

## Service Men of West Shore May Form Post

Returned service men from several West Shore towns are discussing the feasibility of a West Shore post of the American Legion. The move has not been widely circulated, but has been talked of by some of the more active service men who feel the need of a post along the West Shore.

An organization of this kind would mean a post with a membership of more than 500 men which would be the means of keeping a large body of service men together with small posts in each of the West Shore towns, advocates of the West Shore post believe less work could be accomplished. The largest post in any of the towns would not have a membership of more than 100 men.

Advocates of the move feel that the West Shore Firemen's Union was so successful in improving the West Shore along municipal lines and are urged to encourage an organization of this kind which will be even greater and stronger than the union and could work in conjunction with all boroughs for the advancement and improvement of the West Shore at large.

Up to this time, the New Cumberland post is the only one organized.

## PETITION COURT TO REMIT FINES

### Chambersburg Federation of Labor Says Strikers in Jail Are Destitute

Chambersburg, Pa., Nov. 5.—The local Federation of Labor, W. J. Gettel, secretary, is circulating copies of a petition addressed to Judge Gillan asking him to remit the fines and costs imposed on the 53 Waynesboro strikers who are now serving 30-day sentences in jail. Each defendant who was found guilty was also sentenced to \$25 fine and costs. The costs in the aggregate amount to \$2,424.24.

The petition points out two reasons for asking the county to bear the costs, rather than have the prisoners serve an extra 90 days in jail for failure to pay their fines and costs. The first is that in most cases the men are destitute and do not have the money to pay and will, therefore, have to serve 90 days more. The circular refers to the fact that the county pays the sheriff 40 cents a day for keeping prisoners, and if the 58 men are kept 90 days it means a bill of \$2,083 extra.

The other reason is that the men are being punished now, but if they are kept in jail ninety days their families will be severely punished. Already the families of several of the men are suffering, being without funds.
