# A Special Offering of Street Dresses in Tricotine; \$45.00

For the cold days of winter the tailored frock is indispensable for it is called much and often into service.

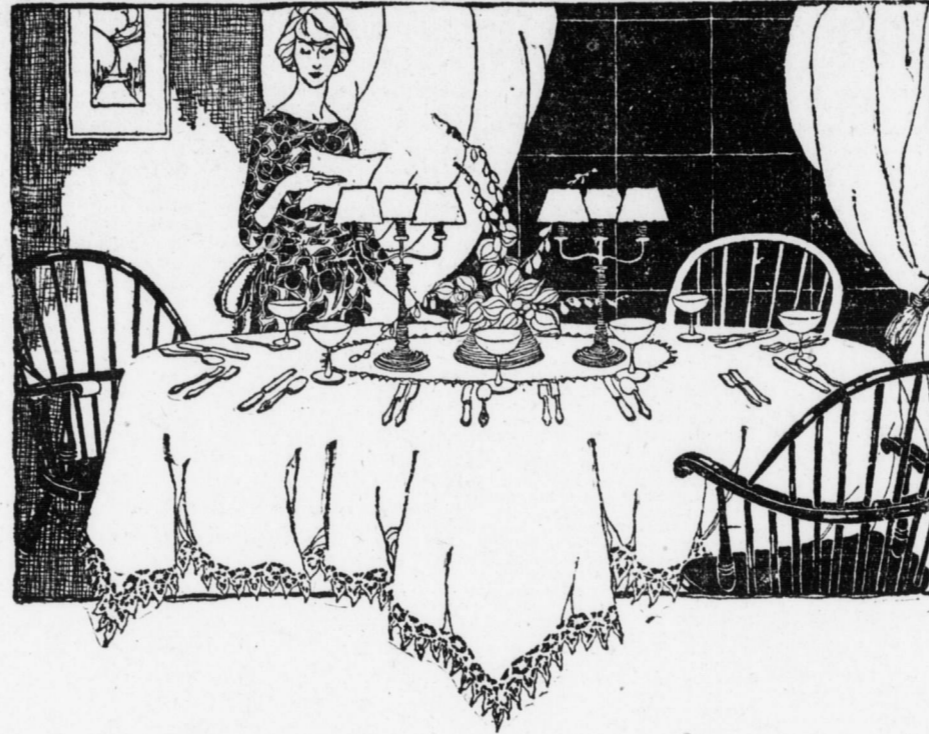

Our newest arrivals reveal the latest style tendencies and establish the mode for winter.

Tricotine is the Fabric de Luxe for the tailored dress. The well defined twill and firm texture of the fabric make it unusually attractive and desirable. Moreover it is most satisfying in interpreting the new straight line silhouette.

Our selection embraces the long slender lines, blouse effect and tunic models. Lavish embroidery, original braidings and self or bone buttons form the trimmings for these lovely dresses.

A Casaque model is tailor stitched and braid embroidered in original designs. A satin sash with tassel ends complete a lovely dress.
