85,000 WORKED IN PA. SHIPYARDS

That Was Peak of Employment in the Six Plants in the State

Philadelphia, Nov. 7.—More than 85,000 men and women were employed in the six Pennsylvania ship-

biggest yards—Hog Island and Har- SEES NEW HOPE

output.

The \$5,000 employes in the six Pennsylvania shipyards represent the peak of employment for 1918 when, in addition to shipbuilding, the larger plants were yet under construction. Five of the six yards are still building ships, while the sixth, the Traylor plant at Cornwells, was abandoned when the wooden ship program of the Government was dropped.

Pennsylvania shipyards represent the peak of employment for 1918 when, in addition to shipbuilding, the larger plants were yet under construction. Five of the six yards are still building ships, while the sixth, the Traylor plant a: Cornwells, was abandoned when the wooden ship program of the Government was dropped.

New Move to Halt

Lifting of the Ban

Wahington, Nov. 7.—An effort to prevent the lifting of war-time prohibition before the Constitutional amendment becomes effective is to be made by some "dry" leaders in Congress, but doubt is expressed whether the necessary legislation and be enacted before the end of the special session late this month.

Representative Randall (Prohibitionist), of California, and washington. A referendum also may be launched in Nevada.

"Forty-five states have ratified the amendment. It needed thirty-live is the special session late this month.

Representative Randall (Prohibitionist), of California, said yesterday that when the House took up the bill to extend the food control act of six months after the proclamation of peace he would offer an amendment continuing the war-time liquor act until January 16, 1920, when the country goes "dry" by Con-live with the terms of the amendment. It needed thirty-live states have ratified the amendment in operative until these referendums are decided."

Prohibitionists Will Lifting of the Ban Barring court actions the played in the six Pennsylvania ship-yards along the Delaware during the year 1918, and almost that large a number is at present engaged in the same task of turning out destroyers mine sweepers, tankers and cargo ships for the Navy and the United States Shipping Board.

The Pennsylvania War History Commission has collected the information at present available on the ship-building industry of this State during the war. Figures on keels laid and bottoms launched can hardly be correct as several of the largest yards are turning out a ship from every three to ten days. However, there have been approximately 170 vessels of all descriptions launched into the Delaware from Pennsylvania yards since this country entered the war in April of 1917. In addition there were a few vessels being fitted out in the spring of 1917 which were commandeered by the Government.

The shipping total runs well into 1918, as it was not until after the lifting of the Ban Wahington, Nov. 7.—An effort to prevent the lifting of war-time prohibition before the Constitutional amendment becomes effective is constitutional and bottoms launched can hardly be correct as several of the largest yards are turning out a ship from every three to ten days. However, there have been approximately 170 vessels of all descriptions launched into the Delaware from Pennsylvania, yards since this country entered the war in April of 1917. In addition there were a few vessels being fitted out in the spring of 1917 which were commandeered by the Government.

The shipping total runs well into 1918, as it was not until after the proclamation of peace he would offer an ilquor act until January 16, 1920, when the country goes "dry" by Constitutional amendment.

The shipping total runs well into 1918, as it was not until after the proclamation of the Bar defort to prevent the lifting of war-time prohibition, if carried, will go is a year after these last electordane with the tern constitutional mendment becomes effective is expr

being fitted out in the spring of 1917 which were commandeered by the Government.

The shipping total runs well into 1919, as it was not until after the armistice that Pennsylvania's twoScotsman.

TIME FOR FREDDY

Freddy (who has eaten his apple)

Let's play at Adam and Eve.

Millie—How do we do that?

Freddy—You tempt me to eat your apple and I give way. — Edinburgh

Your Hair Needs Danderine

Save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or fading. Bring back its color, vigor and vitality. Get a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs stimulating, beautifying "Danderine" to restore its life, color, brightness, abundance. Hurry, Girls!

The most exquisite of this season's fabrics-models that depict the newest modes of Parisian Boulevards, deftly styled to meet the requirements of the most exacting feminine taste.

Many of them with large luxurious fur collars of Hudson Seal-Ringtail and Nutria-lined with apanese silks that reflect all the colors of the flowery king-

dom. Coats that any woman will envy-and they are priced from \$25 to \$40 under the original values.

FOR LIQUORMEN

Make Attempt to Extend Wartime Booze Ban

Washington, Nov. 7 .- An effort to prevent the lifting of wartime pronibition before the constitutional amendment becomes effective is to be made by some "dry" leaders in

Representative Randall, Prohibitionist, California, said that when the House takes up the bill to extend the food control act for six months after the proclamation of peace he will offer an amendment continuing the wartime liquor act until January 16, 1920, when the country does "dry" by constitutional

country does "dry" by constitutional amendment.

Opponents of such a move and some of the "drys" admitted that such a proposal would be subject to defeat on parliamentary grounds, as the food control act prohibits only the manufacture and importation of intoxicants. An amendment prohibiting the sale of liquor would be new legislation, it was said, and as such would be subject to a point of order unless the House overrode the chair's decision or the rules committee reported a special rule makmittee reported a special rule making it an order.

Gompers May Make Personal Appeal For Injunction Withdrawal

Washington, Nov. 7.—There are rumors, apparently emanating from high sources, that the injunction hearing set for Saturday might go over for one week without prejudice to either side. Equally persistent were reports that Samuel Gompers, president of the American Federation of Labor, would make a personal appeal to the Attorney General sometime to-day for the withdrawal of the restraining order and all court proceedings on assurance that if this were done the strike could be settled and the men put back to work in the mines in 48 hours. Mr. Palmer was out of the city, but the statement by Judge Ames that the Government would not compromise the strike, which it held filegal, was accepted as the last word on the subject. Washington, Nov. 7 .- There are

Government officials took another Government officials took another look at stock reports and while these indicated coal enough to meet immediate needs, the fact stared them in the face that the daily consumption was around ten million tons, while the daily output had been reduced by the strike to about three and one-half million tons. It was easy for a man to figure, they said, how long present stocks would last, assuming the bins were filled for an average run of thirty days.

More Mines Resume Operations in W. Va.

Operations in W. Va.

By Associated Press

Charleston, W. Va., Nov. 7.—Resumption of operations by mines closed down by the miners' strike has risen considerably during the last two days, according to reports received here to-day. Forty-five mines throughout the State which were tied up at the beginning of the walkout were reported working to-day. This is a gain of one since Wednesday. Most of the mines are monunion and production in the aggregate is small, however, and mine union officials declare there has been no break in the strikers' ranks. The Kanawha Coal Operators' Association has made public a letter sent to President Wilson yesterday taking exception to the letter of C. F. Keeney, president of District No. 17, United Mine Workers of America, to the President relative to wages paid the miners.

The operators said Mr. Keeney's statement that the operators made "an average profit of \$1.45 on each ton of coal mined," was "unfair, misleading and impossible of proof" and a "serious indictment against the fuel department."

Figures were given showing wage increases granted the miners during the last four years ranging from 43 to 164 per cent. During this period, the letter said, "there has been no increase in house rents and lights, and only an increase in house fuel as allowed and agreed to by the Washington agreement."

Fall Overseas Is Fatal For Lancaster Soldier

Lancaster, Pa., Nov. 7.—Benjamin F. Harman died yesterday at the General Hospital as the result of injuries received from a fall while serving with the United States Army serving with the United States Army overseas. He was 31 years of age.
"Benny," despite the fact that he was a helpless cripple, was the one ray of sunshine in the hospital and his bright smile and cheery ways helped many less afflicted to get well. His chief regret was that he went to France to fight the battle for a world democracy and never even got a chance to "Swat the Hun." His company was nearing the firing line one night and was forced to bunk in a barn. While seeking a place to rest he fell through a hay hole, injuring his spine so as to permananently paralyze his limbs.

GENERAL SHANNON HERE
General E. C. Shannon, commanding the First brigade of the new
National Guard, came here to-day to
discuss units of the Philadelphia organizations with Adjutant General
Beary. He expects the formation
to be taken up actively.
