Live pure, speak truth, right wrong, Elsewhere born?

VICTORY FOR PEOPLE

THE Government of the United States has proved that it is the most powerful agency in America.

That was shown on Saturday when it ordered the leaders of the coal strike to call off the walk-out.

Two weeks ago these leaders were defiant of all authority. They placed themselves above the President, above the courts and above all law.

The next step is to thresh out the grievances the unions claim they have, before a fair tribunal.

General Wood is getting the recognition denied him by a partisan Washington administration in its characteristic fashion when real fighters were anxious to get to the front.

And to think that just one year ago to-day we thought our troubles were all over.

WHAT THIS WEEK MEANS

THIS is War History Week. It has been proclaimed by the Governor and the Mayor.

If the people who took part in the war, either as soldiers in France or in this country, as sailors, as marines, as nurses, as draft board officers or attaches or as members of various committees do not start now to get together the facts they will be sorry some day.

Every week people are to be seen at the State Library or at a department in the Capitol laboriously seeking facts about an ancestor who was in the Revolution, the War of 1812 or the Civil War.

And to think that just one year ago to-day we thought our troubles were all over.

And to think that just one year ago to-day we thought our troubles were all over.

And to think that just one year ago to-day we thought our troubles were all over.

And to think that just one year ago to-day we thought our troubles were all over.

often they do not. This is because no organized effort was ever made to get the information.

Thanks to the initiative of Governor Sprout, the State has the funds and the system to get the information so that authentic history can be written.

carried on in a modest way, but with results that commend the institution as one which deserves more consideration from the public at large.

When the city gets its Foundation for the handling of bequests for the welfare of the community—the contributions of the living and the dead—the Home for the Friendless and other like institutions will doubtless come into their own.

WHEN A FELLER NEEDS A FRIEND

By BRIGGS

Those who are asking us to "support the coal strike" in order that some thousands of workmen may fight for a six-hour day while we run the risk of freezing to death, have a fine sense of humor, or none whatever, we are at a loss to decide which.

Politics in Pennsylvania

By the Ex-Committeeman

Now that the election is over and men who follow politics are commencing to think about the big year ahead, it is not surprising that there will be an early announcing season and that numerous aspirants for office will be heard of.

Rugged Americanism

[From the Manufacturers' Record.]

Gen. Leonard Wood is supposed to be a candidate for the Republican presidential nomination. That nomination is a long way off, and we are not concerned with the political fortunes of any individual.

The New National Guard

[From the Philadelphia Bulletin.]

The success of the plan for the re-establishment of the National Guard on a permanent basis as an efficient reserve for the Regular Army depends very much on the character of the enterprise.

Watch the Dog Law

[Pennsylvania Farmer]

Reading between the lines in the report of the present dog law in the Pennsylvania Association of County Commissioners one detects a sentiment in that organization that is not very far from the truth.
