

COMMISSION TO IMPOSE A FINE

Mt. Holly Springs Concern Has Not Complied With Order to Reopen Power Plant

The Public Service Commission today issued an order on the M. E. Kraybill Light, Heat and Power Company, of Mt. Holly Springs, Cumberland county, to show cause why a fine should not be imposed on it for failing to rebuild its plant destroyed by fire, and which the Commission directed should be rebuilt so that the borough should have electric service. The order was issued September 1. The rule is returnable December 3. The Riverton Consolidated Water Company, supplying water in parts of York and Cumberland counties has filed notice of changes in its tariff providing for metering of all new service and for changes in its fire service rates. The Milroy and Reeds-

ville Telephone Company, filed notice of increases in rates, some of them 20 per cent.

Nine more counties filed their official returns of the judicial election to-day at the State Department.

The Public Service Commission was today informed that a number of miners in Lansford region had struck alleging that they should not be required to pay an increase of two cents in miners fares in the Eastern Pennsylvania line. The Eastern Company advances fares a few days ago. The commission will not take any part in the controversy unless a complaint is filed by the miners.

Reports to the State Department of Mines to-day from mine inspectors in the bituminous region were to the effect that some of the miners, notably in Allegheny county, had declared that they would not return to work. The general opinion expressed by inspectors was that the strike is broken.

Warden John Francis, of the Western Penitentiary, was at the State Capitol.

The largest payment in weeks was made to-day at the State Treasury, when the Reimburse system paid \$581,013.88 as state taxes on capital stock and loans. State Treasury receipts

are running about \$1,500,000 ahead of this time last year.

The meeting of the State Public Grounds Board scheduled for to-day was postponed until to-morrow owing to absence of officials. Plans for the improvements in the park zone will be considered.

The State Armory Board will meet here Thursday of next week.

Lieutenant Governor Edward E. Beidelman, spoke to-day at Wellsboro at the armistice day celebration.

Congressman E. R. Kieiss, Lycoming county, and Representative James Beacon, of Greensburg, were at the Capitol.

WHY SHOULD I AID THE RED CROSS?

First—Because its past work has shown to the world that there is no more efficient agent of mercy than the American Red Cross.

Second—Because the experience of the war has given it a training that has made it able to respond to emergencies in the most prompt, intelligent, helpful and economical way without the sacrifice of efficiency and liberal use of its means.

Third—Because it has called forth and developed talents which, otherwise might have been unknown to the possessors of them. It has thus fitted thousands of our citizens for greater helpfulness in their respective homes and neighborhoods, as well as for the larger sphere in which they have been accustomed to work.

Fourth—Because it has trained men, women and children not only to think in terms of sympathy for others, but to work unselfishly for the distressed and suffering. While the basis of our national welfare is justice, righteousness, liberty and obedience to law, these virtues need to be tempered and guided by love for others.

Fifth—Because of all other organizations none is more democratic than the Red Cross.

Sixth—Because it will be a misfortune for Red Cross workers, and for the public, if the sentiments, sympathies and united efforts which have been called into existence should be permitted to be lost in the mere round of social pleasures and duties.

Seventh—Because of gratitude for the armistice celebrated to-day, and the past work of the society in the war zone and elsewhere.

Eighth—Because "the poor we have always with you" and the Red Cross will always be needed.

Ninth—Because what I give in the way of time by becoming a member of the Red Cross and what I gain in the way of money, will accomplish far more through this agency than they could possibly do by individual effort. These are a few of the reasons why the Red Cross should command the sympathy and help of all.

Strike Compels Paris Papers to Combine

By Associated Press.

Paris, Nov. 11.—The principal morning newspapers joined forces and produced an edition this morning under the title "presse de Paris." This was necessitated by the strike of linotypers and typographers called last night. The following note is prominently printed on the front page:

"Notwithstanding a contract binding them until June 1, 1920, the Paris printers' unions suddenly declared a strike last night. This action is all the more regrettable as it occurs the very day on which we celebrate the anniversary of victory and on the eve of the parliamentary elections.

"In a sentiment of union, the newspapers of the capital have agreed to publish during the strike a single newspaper."
