REPUBLICANS TO FIX CONVENTION PLACE AND DATE

Hays to Call Meeting to Be Held in Washington December 10

By Associated Press

Chicago. Nov. 11.—A meeting of the Republican National Committee will be held at Washington, December 10, to fix the date and place for the National convention in 1920. This information was learned last night from authoritative sources following an informal session of twenty-five members of the committee. A call for this meeting was to be issued to-day by Will H. Mays, chairman of the committee.

It was learned also from this same source that the meeting yesterday was one of a series of informal gatherings which have been held the second Monday in the month recent-

ly at various state headquarters. These meetings, it was said, will be continued for some time.

Open Way For Women

A detailed plan of organization which will provide for full participation of Republican women in the future affairs of the party was adopted at the meeting.

The plan adopted was recommended by the Republican National Woman's Executive Committee of which Mrs. Mary McCready of Louisville was chairman appointed a year ago to work out a practical method by which women could take an active part in the party management.

In putting this plan into effect the committee has created a woman's division of the Republican National Committee and elected Mrs. John G. South, of Frankfort, Ky., chairman.

There will be a representative of the woman's division in every state. In addition there will be a national woman's council of 100 members, the personnel of which will be announced later.

ONE UNCONCERNED PROFITEER

"Of course some of the profiteers will manage to escape."

"Undoubtedly. —I don't see the slightest sign of anxiety in the face of our head waiter." — Washington Star.

Kellogg's

"WON ITS FAVOR THROUGH ITS FLAVOR"

EVERY grocer everywhere sells Kellogg's every day.
Kellogg's batters the breakfasts in millions of homes. More Kellogg's is eaten today than ever before.

BIG ACHIEVEMENTS OF FARM BUREAU

Formation of Cow Testing and Farm Loan Associations Are Among the Big Accomplishments Under Direction of County Agent H. G. Niesley

Cow testing association, the organization of a farm loan association and various demonstrations, are some of the outstanding features in the Dauphin County Farm Bureau's record of achievements thus far during the year of 1919.

The offices of the bureau in the Dauphin Building have been scenes of unusual activity, and the county agent, H. G. Niesley, has been an extremely busy man. Thus far this year Mr. Niesley has made a total

of 295 visits to the farms of the county.

Greater service, however, was rendered to callers at the office. Farmers of the county visited the offices no less than \$26 times for aid and services from the agent. In matters of lesser importance and where the farmer lives in a greater distance from the city, the use of the telephone served, and no less than 785 times did Mr. Niesley furnish advice and information to the tillers of the soil over the telephone.

Meetings of various sorts, under the auspices of the Dauphin County Farm Bureau, were staged in the bureau's offices and in various localities. Big attendances were had at all, and Mr. Niesley on a number of occasions attended other meetings to speak.

Cow Tester Employed
The formation of the co-operative cow testing association was one of the big steps forward resulting from the efforts of Mr. Niesley, backed up by the bureau. Twenty-six farmers are included in the association, which employs a skilled cow tester, Wilmer Grubb, who visits each herd once a month. Every member of the body has spoken favorably of the achievements of this association, and one member has gone so far as to say that it saved him more than \$150 in six months. He had been feeding cracked corn to his cows, he said, and since the formation of the bureau he saved that amount in corn alone.

A farm loan association, organized during the summer, is expected to prove of distinct benefit to the farmers of the county as an aid to them in purchasing their own farms. Residents of many sections of the county were enthusiastic in their desire for the formation of such a body and requests were made by these farmers for loans of \$105,400 for the improvement of their ground. A full list of officers was named by these men.

Demonstrations and tests, of wide variety, were included in the program of the bureau's activity for the year. Some of them have already been completed, but many more are still in progress.

Pork Production
Illustrations of the most economical methods of pork growing, were of wide importance and attracted keen attention from the hog growers and others throughout the confines of the county. Four demonstrations were staged during the year in such communities of the county as were accessible to the growers.

Pork Production
How pork can be produced more economically by pasture rotation than by feeding in pens was most emphatically shown. Results have shown that the cost of producing pork on pasture was but from 10 to 12 cents, as compared to more than 15 cents per pound by the system ordinarily employed in the city.

Pig and Poultry Clubs
Pig and poultry clubs for the younger boys and girls attracted considerable interest. There were a total of five pig clubs, which had a total membership of 55. Big gains were shown by many of these pigs, and the record pig of the county showed a gain of 16 pounds per week. A boys' and girls' stock judging contest was held in co-operation with the Oakdale Grange, and a poultry culling demonstration has resulted in the bettering of many flocks of the county.

Soy Feeding
Farm crops and disease control received considerable attention from officials of the bureau. Widespread interest was shown in all.

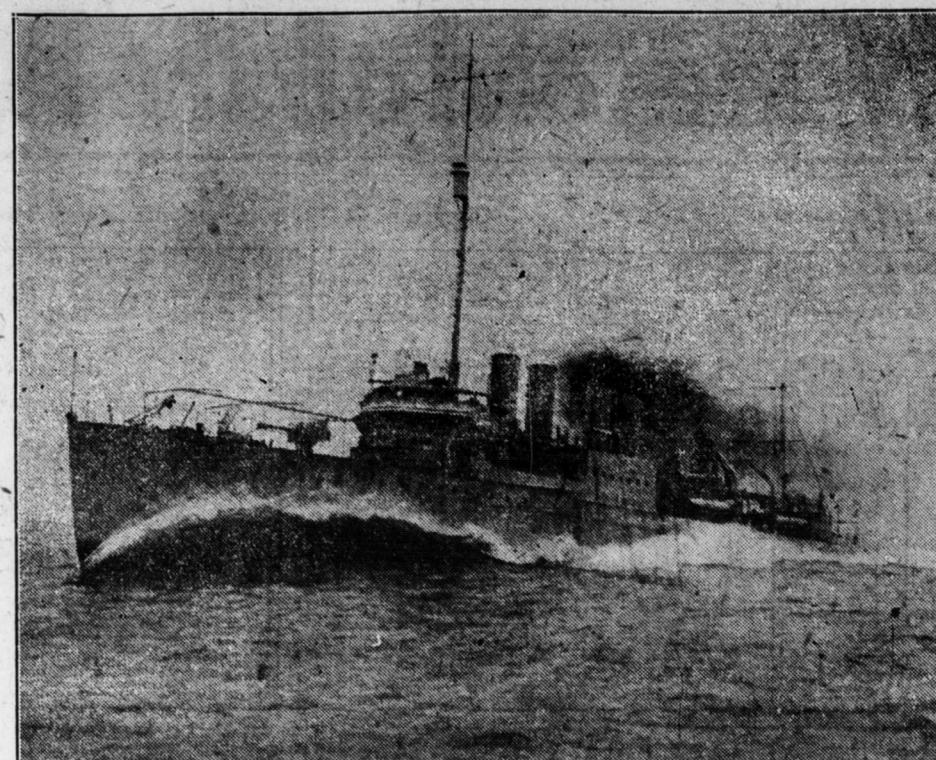

A soil tester has been purchased and Mr. Niesley has made tests on soils from many farms of the county. In this way he has been best able to advise the owner of the fertilizer to be used on the soil. Certain top-dressing and fertilizer demonstrations were staged at intervals to best determine merits of top-dressing and of various kinds of fertilizers.

Three corn variety tests, in which more than a score of varieties of corn were tested, were held. As a result of these demonstrations farmers have made plans to plant interchanged varieties of corn in many sections of the country. Other tests were made of alfalfa and wheat.

Efforts of the bureau in the way of disease control produced material benefits of importance. A trio of demonstrations were held, in which a variety of sorts were used. An approximate increase of 20 bushels per acre was shown. A corn root rot demonstration, to demonstrate the effect of diseased corn on the yield, attracted a big gathering of farmers near Middleton.

A. B. Shultz, of Hershey, is president of the bureau; John C. Smeal, of Halifax, is vice-president; Howard Speece, of Speecerville, secretary, and Frank Snavely, of Hershey, treasurer.

BETHLEHEM BUILDS FASTEST DESTROYER

The latest United States destroyer Reid, built by the Bethlehem Shipbuilding Corporation at their Quincy works of the Fore River plant, Quincy, Massachusetts. The record in shipbuilding was made when the destroyer was launched in forty-five and one-half working days after work was started.

MAN AND BOY CONFESS LONG ROBBERY LIST

State Police Have "Bandits" Who Terrorized Lancaster County

Lancaster, Nov. 11.—People of Lancaster county towns to-day breathed a sigh of relief after it became known that William Brown, 32 years old, and Joseph Schurter, 16 years old, were being held for a long series of robberies that have terrorized communities in which the raids were committed.

State police have disclosed two signed confessions in which the pair admitted having broken into post offices, tapped safes and looted offices in prominent business places.

Brown, an ex-convict, calmly related how the two had spent night after night gathering loot, while town officials were trying to trap "motor bandits." Scores of places in all sections of the county were raided, wagonloads of fruit were removed from orchards and farmhouses, and the two men first stole revolvers and worked armed. Towns raided, according to the men's confession, are Manheim, Mt. Joy, Mountville, Christiana, Millersville, Strasburg, East Petersburg, Quarryville and Atglen.

The Last Robbery

While under suspicion for a week, the culmination of their depredations came last week when forty bushels of corn were stolen from a farm along the New Holland turnpike, near State troops' barracks. It was discovered the stable rented by Brown in the western end of the city. His arrest followed, and then he was accused of the other robberies.

Brown, who has been following the huckstering business since he was discharged from the penitentiary, blames his failure to make sufficient friends among the criminals. "I never lot on watermelons and other things this summer, and I just thought I would take another fling at the 'old' game. I just knew I would be caught, so did the 'kid,' but we kept at it. All the time we were at it we kept saying we're going to get caught."

The men, in their sole object is apparent from what they stole. Many times valuable jewelry was within easy reach, also checks in the mails they robbed. It was on a basis of \$10 a day that they worked. When the money was exhausted they started out for more.

IMPORTANT INDUSTRY

It isn't often that a Washington guide is nonplussed, but I saw one in that predicament the other day."

"How did it happen?"

"A dear old lady from the Middle West had been showing the Washington monument, the White House, the Capitol and a dozen other places of interest. Just when the guide was about to call it a day she turned to him and said, 'Now show me where they do the whitewashing.' —Birmingham Age-Herald.

KNOW IT WASN'T RYE
Two Scotsmen were staying at a third-rate hotel in London, and discovered that the washstand in their bedroom was minus soap. They turned up sape, laid it on the washbasin, and exclaimed one of the Old World's when the attendant appeared. He gazed at the two men muttering, "What can they want?"

The Scot became angry. "Mon," he thundered, "can you no' understand plain Scotch?" The attendant withdrew and returned with a bottle. —Dallas News.

Give the world the once over

LISTEN, fellows, to some straight talk. Many a man when he gets to be 40, misses something. He may have lots of money and a fine family, but—

He never "got out and saw things". After he gets settled down, it's too late.

Every man wants to see the world. No man likes to stand still all his life. The best time to TRAVEL is when you're young and lively—right NOW!

Right NOW your Uncle Sam is calling, "Shove off!" He wants men for his Navy. He's inviting you! It's the biggest chance you will ever get to give the world the once over!

The Navy goes all over the world—sails the Seven Seas—squints at the six continents—that's business. You stand to see more odd sights, wonderful scenery and strange people than you ever dreamed of.

You'll work hard while you work. You'll play hard while you play. You'll earn and learn. You'll get, in addition to "shore-leave", a 30-day straight vacation—which is more than the average bank president can count on.

You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.

There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

Shove off!

U.S. NAVY

Baseball Writers to Take in Scribes in Minor Cities

Philadelphia, Nov. 11.—Joseph M. McCready, secretary-treasurer of the Baseball Writers' Association of America, announced to-day that at the annual meeting of the organization which will be held in New York early in December at the time of the year, a motion will be referendum voted for an associate class which will admit to membership the writers on the minor league circuits. When brought together into one association, writers in the major and minor leagues will mean much for the report, said Mr. McCready.

SONGS ARTISTICALLY SUNG

What is to be done by those who know to be the finest ensemble of men's voices to be heard in the entire United States, the Columbia Stellar Quartet, will make its appearance in this city as a guest attraction on the evening of Thursday, November 13, under the auspices of Miss Gertrude O.

There are a number of reasons which make it easy to understand how this organization has attained such great popularity. In the first place, each of the four members has won distinction as a soloist of extraordinary merit, both from the vocal and artistic standpoint. They have the old Italian or bel canto method, and their long association has served to blend their separate perfections into

Beauty Answers

BY MADAM MAREE

MISS GERTRUDE O.—
M.—You say you are 25 and look like 35. If you will try this wrinkle formula you will soon say you will look like 20, and this is no exaggeration. You are not alone if you will make up your mind to use this formula, liberally, every day and use no other called wrinkle cream. Add two tablespoonsfuls of glycerine and two ounces eptol to a half pint of hot water. Keep stirring until they form a satiny cream. This is so wonderful that it can be used generously. It removes wrinkles, crow's feet and lines of age. Eptol can be obtained for less than fifty cents at any drug store.

MRS. S. O. S.—Your hair should stop falling if you will use this hair tonic. Every one who has tried it says it is the best. It makes hair grow and stops hair falling. Get one ounce of hemquinol from your druggist for 50 cents. Mix it with one pint of witch-hazel, or, if preferred, add one-half pint each of water and rum. Use this every day and your dream hair, long, silken, beautiful hair will truly come true. In case you mix mixture you will find it will give you over a pint of the hair grower at a smaller cost than that of any other hair treatment, and besides, you have the best you can get anywhere. It will not cost to give results.

MRS. B. O. T.—Your hair is brittle because of the soap and ordinary shampoos you use. You know they all contain alkali. That dries up the natural oils. Now, just dissolve a teaspoonful of egg in a basin and add a few drops of oil and you'll see how different your hair will be. All fatty accumulations and dandruff will disappear like magic. This is a very simple elixir. Enough egg can be obtained for twenty-five cents at the drug store for over a dozen of these shampoos.

one harmonious ensemble. Last, but by no means least, is the fact that their programs are so carefully selected that any one who has the taste for music is sure to find in them many things to his liking.
