After dinner, Mrs. Savory went into the parlor to kiss her husband, and he shot her in the back of the head with a pistol.

Continuing in a lower voice, the reporter's chief said: "We are living in our own time as best we can, but our lives are just a passing instant to the continuity of civilization, and the progress of the world and what matters it if you and you and you and I are placed in jail because we have attempted to uphold the principles of freedom and justice and democracy."

"We are in accord with our government when we know that our government is following out a course of justice and freedom and of human development as expressed by the principles of democracy."

"We are tied to no administration, but we are free men and we propose to exercise the freedom of our judgment and our conduct and to criticize or to express ourselves in dissent from the policies pursued."

"We have faith in our cause," Mr. Gompers further asserted. "We believe that we are right. Aye, we are convinced that we are in the right and the men and women of labor in America understand and that the men and women of freedom in the whole world will understand that the attempt to impose upon our people a condition of affairs that is repugnant to the concepts of right and of justice and of democracy, we the men and women of labor will stand true to the highest principles of justice and of right and of freedom."

Delegates attending the dinner at the suggestion of Louis M. Morrison, Mexican representative, pledged their support to the United Mine Workers of America in the present strike.

"Wets" Lead Again in Vote in Ohio; Recount Demanded

Columbus, Ohio, Nov. 11.—The courts may be called upon to decide whether Ohio voters upheld or repudiated the action of the State Legislature in ratifying the Federal prohibition amendment.

White, however, has not yet admitted defeat of the proposal, contending that it will take the complete official count to decide the result.

Hamilton county's official count, including Cincinnati, has not yet reached the office of the Secretary of State.

Should the election be forced into the courts, the final result may not be known for weeks or even months.

A reported gain of 764 votes for the wets in the official count of Hamilton county yesterday, would turn the dry majority of 120 votes, based on official returns received at the Secretary of State's office and the unofficial count of Hamilton county, into a wet majority of 644.

"WE HAVE FAITH IN OUR CAUSE," SAYS GOMPERS

Further Declares "We Are Tied to No Administration, but Are Free Men"

Washington, Nov. 11.—Abjuring loyalty to a "temporary" administration which violates the principles of democracy, Samuel Gompers, speaking for American labor at a dinner given to-night for delegates to the International Federation of Trade Unions, declared that "we are tied to no administration, but we are free men and propose to exercise the freedom of our judgment."

Mr. Gompers told the representatives of foreign labor that he did not believe a true understanding of the coal miners' strike had reached the President because of his illness.

Responding to the American labor leader's address, Leon Jouhaux, leader of the French labor delegation to the International Labor Conference, declared that "if the workers of the United States need the assistance of other countries, they will get it."

"We are engaged in the greatest work of to-day," said Mr. Gompers, "the greatest that has ever been attempted by the common people of America—to secure right and justice and a better standard of life and the principles of freedom and humanity."

"We are living in our own time as best we can, but our lives are just a passing instant to the continuity of civilization, and the progress of the world and what matters it if you and you and you and I are placed in jail because we have attempted to uphold the principles of freedom and justice and democracy."

Governor Sproul Tells Women They Must Convince the People

Philadelphia, Nov. 11.—Governor Sproul, addressing the delegates to the State convention of the Pennsylvania Woman's Suffrage Association at a dinner here last night, reminded them that although Pennsylvania had ratified the universal suffrage amendment, their work was not done and that they had still to convince the people and the Legislature that they should be given suffrage in state elections.

Mr. Gompers told the representatives of foreign labor that he did not believe a true understanding of the coal miners' strike had reached the President because of his illness.
