

WOULD DEPORT VICTOR BERGER

American Legion Brands Former Congressman as "A Disloyal Citizen"

Minneapolis, Minn., Nov. 12.—The first convention of the American Legion has already started pro- nouncement of its policies by adopt- ing resolutions declaring the organ- ization to be "nonpolitical," demand- ing the deportation of Victor Ber- ger, of Milwaukee, as "a disloyal citizen" and asking investigation of the record of Representative Voight, of Wisconsin, who supported Berger in the recent vote in the House of Representatives. The resolution asking cancellation

of Berger's citizenship and his depor- tation, drawn by Theodore Roosevelt Post No. 1 of the District of Col- umbia, was adopted on motion of the Wisconsin delegation. A similar resolution requests Congress "if it finds Representative Voight to be disloyal, to take steps for his ex- pulsion from the House of Represen- tatives."

Other important decisions reached yesterday include the selection of Indianapolis as permanent National headquarters of the Legion and Cleveland as the convention city for 1920. Endorsement of universal military training with a small standing army and no compulsory military service in time of peace was voted enthus- iastically last night by the Legion convention. It is recommended that the National citizens' army be under local control and administration subject to general National regula- tions.

Ignored Broken Pledge, Labor Federation Says of Palmer Statement

Washington, Nov. 12.—The execu- tive council of the American Federa- tion of Labor, after a special meet- ing yesterday, gave out this state- ment:

"The executive council notes the fact that in the statement issued by Attorney General Palmer, which beyond doubt was called forth by the statement issued by the executive council at its meeting Sunday, Nov- ember 9, and published in the news- papers Monday, November 10, that the Attorney General evades in the main not only the declarations of principle involved in the restraining order and the mandatory features of the injunction issued by Judge Anderson but that Mr. Palmer wholly ignores the assertion made by the executive council that a pledge was made by the Government officials and by members of Congress that the Lever act was never intended to apply to the activities of wage-earn- ers engaged in any strike or lockout relative to wages, hours and condi- tions of employment and that the Lever act would not be applied by the Government to wage-earners en- gaged in such activities. "The Attorney General evades and ignores the broken pledge and bad faith of the administration in re- spect to these facts."

BOSNIA HARD HIT BY WAR

Factory Production Slow and R. R. Transportation Is Uncertain

Sarajevo, Bosnia, Nov. 12.—Bos- nia may be a long time recovering from the effects of the war. Factory production is almost at a standstill, railroad transport is irregular and uncertain, stores are bare of stocks, imports are much reduced, clothing and food are high in price, and there is much idleness among the people. The crops this year, however, are abundant and there is sufficient food to meet all needs. The German and Hungarian signs which formerly appeared above the store windows have given place to placards in Serbian, and Sarajevo has taken on quite the ap- pearance of a Serbian town. The Serbian inhabitants are of course quite content with the Belgrade gov- ernment, but the Germans, Austri- ans and Turks are not quite so happy. There is a situation, how- ever, to accept conditions as they are and to hope for a resumption of the commercial activity and advan- tages which the people enjoyed at the hands of the Austrians. The friends of the Serbs and Jugo-Slavs hope that with time the Serbian government will be able to match the prosperity and progress which the Austrians and Germans brought to the country. Among the population America en- joys great prestige and respect. This is largely due to the timely help brought to the country by the Amer- ican Red Cross and the United States Food Administration. Until the ar- rival of these agencies, American- ists had never before appeared in Bosnia in any considerable num- ber. The presence of the officers of the Red Cross and the Food Admin- istration has had an educational and a social effect among the Bosnians. Much of the rancor and harsh feeling engendered by the war- time has been smoothed through the work of these Americans, and a part of the people now look upon the United States as a friend, not as a foe.

Archbishop Hartman Is Dead at Cologne

Cologne, Nov. 12.—Cardinal Felix Von Hartmann, archbishop of Col- ogne, is dead at his residence here. During the early days of the war, Cardinal Von Hartmann caused some adverse comment in Germany by is- suing a pastoral letter directing that a petition for peace be included in the prayers of Catholics. In the lat- ter part of 1915 he was sent to Rome by the then Emperor William on a mission to the Pope that was sup- posed to have peace for its objec- tive. In May of 1918, in response to Cardinal Hartmann's request that the Allies refrain from air attacks on Cologne on Corpus Christi day, the city was not molested.

WORLD'S BIGGEST WARSHIP READY

Normal Displacement of the Hood Will Be 44,000 Tons

Glasgow, Nov. 12.—A new "larg- est battleship in the world" will estab- lish new records in the annals of naval construction. The ship, a battle cruiser, is the Hood. Her builders say she is not only the largest in the British navy, but the largest warship ever con- structed. Not even the four super- dreadnaughts being built for the United States Navy, ships of 42,000 tons, approach the enormous bulk of the Hood, her normal displacement being 44,000 tons and, at full load, about 48,000. Fitted with oil-fired boilers and geared turbines, which develop 144,000 shaft horse-power, the Hood is expected to make a speed of 31 knots in her trials. Her arma- ment and anti-torpedo protection is so elaborate she is said to be the "most invulnerable" ship ever con- sidered for construction. Details of the Hood's gun-power, it is claimed, will cause a sensation when made public.
