Wedison will have hobby clubs something like those that have been offered to the boys of Tech during the last two years. This matter has been placed officially before the various sections of the school. Each student is given a chance to make a first, second, third and fourth choice. Ninth year students will be given a first choice in all cases where all applicants can not be cared for because of overcrowding. In certain cases two or even more clube of the same nature will be organized if the student choice warrants such organization. This will probably happen in the case of the Stamp and Camera Clubs. These clubs will meet once a week during the activities period.

lotte Walker, Ernest Lawford and Doan Borup, in "Tea For Three."

The painfully small audience came away thoroughly convinced that the author, Roi Cooper Megrue, from whose pen so many wonderful hits have come, had at last produced his masterpiece. They were further convinced that the piece could not possibly have been put in more capable hands than those of Miss Walker and her associates.

"Tea For Three" is a most delightful comedy in three acts, each one of which is more charming than its predecessor. And yet, it was not one of those light, breezy comedy things. "Tea For Three" goes perhaps deeper than most comedies, touching upon what its author pleases to term "another angle to the triangle." M.ss Walker, the more-than-ordinarily good-looking young wife of a stogy busipessman whose whole thought and ambition is in acquiring more money, was particularly difficult, though thoroughly convincing. Her situations, most dramatical at times, were handled as only an artiste of poise and skill is capable. Mr. Lawford, bachelor, whose love for the wife of his chum of collego days, was too pure and clean to be dragged through a divorce court, 'handled his difficult role with a naturalness that was most refreshing.

It is little wonder then that New York held this remarkable trio fast within the borders of its own theatrical domain for something over a year in this charming production. From here, "Tea For Three" goes to the Adelphia, Philadelphia, where it is as certain of a long run as it was in New York.

tioning the former Minister of the Navy on submarine construction. The admiral replied succinctly, in an endeavor to show why submarine construction was retarded in 1916, and why it jumped enormously in 1917 and 1918.

"Eight hundred and ten submarines were built before and during the war," said the former Minister of the Navy. "Of these forty-five were constructed before the war, 186 were built during the administration of Admiral von Tirpitz and 579 were built by me in the two and a half years I was in office.

### Camp Grant Overcharge Put at Over \$4.500,000

Rockford, Ill., Nov. 13. — Evidence purporting to show that more than \$4,500,000 was expended needlessly in building Camp Grant, and disclosures of alleged graft among workmen at the cantonment enlivened the session of the Congressional subcommittee investigating the cost of the camp. f the camp.

of the camp.

Interesting figures concerning the actual cost of the camp, which approximately was \$13,500,000, and the price the Government might have built the cantonment upon a lump sum basis were given on the stand by J. P. O'Connor, contractor of Chicago. O'Connor was retained by the subcommittee to make a survey of Camp Grant and prepare an estimate of the reasonable cost of construction.

timate of the reasonable cost of construction.

The witness testified that the cantonment could have been built for \$8,819,544, as compared with the actual outlay, which, as far as it has been tabulated, totals \$12,851,269.72, and to which, according to Government experts, there is yet nearly \$1,000,000 to be added.

Famous Old Recipe for Cough Syrup

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap but it really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quiekly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthms.

Pinex is a special and highly concen-
