

Waco, First American Ship on the East Coast of Sweden

Stockholm, Nov. 13.—The American steamer Waco arrived here today inaugurating the first regular American steamship line on the Swedish east coast.

The Swedish importers and the public are delighted at seeing in this American competition a powerful weapon against the exorbitant freights and consequently the high prices which have been due to Swedish shippers who have hitherto been left alone in this traffic.

NAMED POSTMASTER Bedford, Pa., Nov. 13.—George R. Raper has been appointed postmaster at Kearney, this county, to fill the place made vacant by the resignation of H. W. Warsend.

STATE REVENUE NEAR A RECORD

Fiscal Year Will Go Above Any Figures Ever Known in the State Before

Revenue of Pennsylvania is going to pass the high water mark of \$44,500,000 made in the fiscal year of 1918 before the middle of November is reached in opinion of men connected with the Auditor General's department. The fiscal year ends with November and the revenue already in hand is within a few hundred thousand of the total for the whole of the last fiscal period.

A number of large payments on account of corporation taxes and settlements on inheritance taxes are still to be made and there is always activity in payments late in November.

Large payments have been made to the State hunters' license, insurance and school funds which receive moneys from certain sources and considerable investments are about to be made of the cash, most of them being put into the State's own road bonds.

State Fishery authorities say that it is their plan to continue the "planting" of young trout in the streams of the State as long as the weather permits and if the work is carried on as successfully as it was during the winter they predict that the aggregate of the fish put out will break records. The State is also distributing many bluegills and catfish.

Hearings are being arranged by the Public Service Commission for applicants for certificates for operation of jitneys in the Philadelphia and Pittsburgh districts and also to cover taxicab cases. Numerous applications have been filed by persons who have been operating without permission and who have been notified that they must comply with the State regulations.

The Pennsylvania State Telephone and Traffic Association has filed a new tariff of toll rates for its members which consists of the so-called independent concerns operating in many counties of the State. The new tariff is effective December 1 and continues rates in effect during federal control.

George R. Nerman, Arnot, has been appointed superintendent of State highways in Tioga county succeeding W. H. Hatfield, Mansfield, who resigned.

Meter systems work no hardship upon patrons of water companies, but place them where they are called upon to pay only for what they receive and there is no general principle of equity that would warrant excluding such an item of equipment from a valuation of property of a company declares Public Service Commissioner Milton J. Brecht in his decision against the Fayetteville Water Company, which operates in Franklin county. The Commissioner, however, calls for certain revisions in the rules of the company while he sustains the rates charged.

It is improbable that the Public Service Commission will hold any more hearings in regard to telephone rate applications. Argument will be heard on November 24.

Details of State Policemen from three troops were today withdrawn from the Western Pennsylvania districts where they have been on strike duty and returned to their barracks. Recruitment of the new troop and filling up of the other four is progressing rapidly.

Forty counties of the State have filed their judicial election returns and word has been sent to others to expedite filing as the counts have been completed.

Representative Harry J. Scott, of Philadelphia, was among visitors to the Capitol.

Senator William C. McConnell, of Shamokin, called at departments at the Capitol.

According to Philadelphia newspapers Mayor-elect J. Hampton Moore is not very much pleased at the manner in which Chairman Walton, of the committee of 100, has been talking about what the independents would approve for his cabinet. The mayor-elect says that he will select his cabinet himself. This is the attitude which Capitol Hill expected from the new mayor. Governor Sprout's interview in last evening's Philadelphia newspapers in which he denied deals is also interesting to the Hill.

The Governor in an interview in Philadelphia yesterday again discussed possibility of James T. Corleyou, the famous postal inspector, becoming head of the criminal record bureau of the State Police Department. This possibility was much discussed during the closing days of the Legislature.

Adjutant General Beary, a speaker at yesterday's exercises at Hazleton, made a strong speech for law and order. He declared that the unrest was part of a big war and that it was the duty of every man to make the constitution supreme.

Director James Fouss of the State Bureau of Foods, says that the number of fancy drinks put out is amazing since prohibition came in. Some of the concoctions have the State chemists guessing.

William J. Tracy, of Philadelphia, a former magistrate in that city, has assumed his duties as chief of the bureau of mediation of the State Department of Labor and Industry. He will make a tour of various industrial districts.

A committee of members of the House of Representatives from eastern counties will be named to attend the funeral services of Representative William H. Krause, of Bucks county.

Ex-Governor Martin G. Brumbaugh will shortly begin a series of lectures in Juniata College. Public Service hearings are being held in five places to-day, the jitney situation in Philadelphia receiving special attention.

Weather Reports For State Highways

Henry Pennywitt, meteorologist in charge of the Pittsburgh Weather Bureau, to-day conferred with attaches of the State Highway Department relative to the Pittsburgh Weather Bureau's winter service as to snow conditions on main thoroughfares. Two years ago Mr. Pennywitt and the Pennsylvania State Highway Department originated a system of daily reports on road conditions which has since been emulated in numerous other states. As a result of Mr. Pennywitt's visit to-day, the State Highway Department, during the coming winter will keep the Pittsburgh Weather Bureau informed daily as to the snow and travel conditions on the Lincoln Highway between the Ohio line and Gettysburg; the National

Army Supply Base at Greenwich Point Will Be Retained

Philadelphia, Nov. 13.—The \$15,000,000 army supply base at Greenwich point, adjoining the Philadelphia Navy yard, and consisting of huge piers and warehouses, is to be retained by the government.

Penn Students to Unite to Take Strikers' Places

Philadelphia, Nov. 13.—University of Pennsylvania men and co-eds are going to step in, swing the pick and shovel or run the knitting machines, if serious strike conditions imperil the Nation's progress.

A pledge of National support in times of labor crises will be circulated this week-end among the 11,000 men and women of the University for signatures. This resolution was reached at a meeting of an all-University committee. It is expected that virtually every student in every department of the University will sign the pledge sheets.

Won't Build Big Passenger Liners

Washington, Nov. 13.—Edward N. Hurley's scheme for the construction of the shipping board of two mammoth passenger vessels, larger and of greater speed than any heretofore known, has been shelved by John Barton Payne, his successor as chairman. The plan for building these two huge ocean greyhounds was announced by Mr. Hurley shortly before his retirement in July. Since taking office three months ago Mr. Payne has canceled contracts for 207 vessels, not counting tugs and smaller craft.

HOW TO DARKEN GRAY HAIR

A Cincinnati Barber Tells How to Make a Remedy for Gray Hair

Mr. Frank Harbaugh of Cincinnati, Ohio, who has been a barber for more than forty years, recently made the following statement: "Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce bay rum, a small box of Barbo Compound and 1/4 ounce glycerine. These ingredients can be bought at any druggist at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy and does not rub out."

Has Found Happiness After 22 Years Of Suffering

Says the Man-Hell Helped to Reduce the H. C. of L. and wants to see one in every home.

Wishing to help others, Mrs. H. M. Draucher of 635 Woodbine St., Harrisburg, Pa., relates her experience in an interesting letter.

"I can truly say that I have gotten wonderful relief from the Man-Hell Automatic Inhaler used for Hay Fever and Asthma. Have been able to attend picture shows in the hottest nights and could go out in all kinds of weather; something I could not do in former years. Have spent money for everything, answered all advertisements but got no relief from anything until the Man-Hell Inhaler was advertised, by the Gargas Drug Store, of Harrisburg. Since using Inhaler have been able to sleep well, where in former years got no rest and could not get my breath. Had to be under the influence of hypodermic injections most of the time during Hay Fever period, this reduced my vitality and left me very weak, and any rest got was unnatural. We have two children and Mr. Draucher claims the benefit derived from the Man-Hell Inhaler has been of great financial assistance in battling with the H. C. of L., etc., by enabling the mother of the home to be on the job as well as bringing us greater happiness, for we feel that we have at last found relief after 22 years of severe suffering. I want to help others and this letter can be published so the Man-Hell Inhaler will be in many homes. Sincerely yours, Mrs. H. M. Draucher." The remarkable discovery is being proven daily in hundreds of cases of Catarrh, Asthma, Lung Trouble and other diseases of the Air Passages. Persons that have suffered almost constantly for twenty-five and thirty years and who have tried everything else, claim the Man-Hell is the only remedy that gave them relief. The Man-Hell Automatic Inhaler is sold by George A. Gargas Drug Stores with the understanding that if not satisfactory your money will be refunded. "The Live Store"

"Be Sure of Your Store"

The "Overcoat-Fair"

Where You Can Buy Your Overcoat For The Least Money

Every minute since we began our "Overcoat-Fair" this "Live Store" has been the center of attraction. Enthusiastic crowds have attended the "Overcoat-Fair" in great numbers. Our tremendous increased business indicates that November will eclipse any month's business in the history of the store which is very gratifying to us, for it leaves no question of doubt of the confidence the people of throughout Central Pennsylvania have in Doutrichs.

The reason we are selling so many overcoats is because we are saving our customers money. The overcoats we have in stock right now are worth from \$10 to \$15 more than we paid for them. You and your friends get the benefit of these substantial savings if you buy your Overcoat at Doutrichs. Don't forget this! Overcoats are very scarce this year. Only the stores that bought extraordinary quantities are in a position to show a good selection this season, and the ordinary stores that buy very limited quantities (due to their small business) can't offer the advantages such as this "Live Store," which has such enormous purchasing power and tremendous outlet.

It's remarkable how many overcoats have been sold this week at our reasonable prices. But we are going to see some very busy days before the "Overcoat-Fair" closes. Buyers have been here and after comparing our values admitted that they had a very good excuse for buying their clothing at Doutrichs.—Now for two days of big selling. Tell your friends about the thousands of high grade Overcoats we are displaying at the
