Famous Horses of Venice Are Restored

Venice, Nov. 13.—The replacing yesterday of the famous four horses over the principal portal, the Basilica of St. Mark's, was the greatest event in Venice since the commencement of the war.

The four horses, which are among the finest of the ancient bronzes, and which were brought to Venice in 1204 by Doge Enrico Dandolo, were removed during the war in the fear that they would be damaged by an Austrian bombardment and taken to Rome for safety.

URGES PAPER PRICE RAISE

Shortage of Newsprint Necessitates Strenuous Action, Publishers Declare

New York, Nov. 13.—Material increases in advertising and subscription rates, limitation of the size of newspapers and provisions in advertising contracts whereby rates can be adjusted monthly or quarterly were among the recommendations made yesterday by a special convention of the American Newspaper Publishers' Association...

The report of the resolution committee adopted unanimously, follows: "Paper manufacturers have told us that there is a world-wide shortage of paper. At the present rate of consumption the newspapers are using about 10 per cent more paper than is being produced..."

Increased Rates Urged

"That publishers everywhere be urged to materially increase advertising subscription rates, and at the same time limit the size of their issues."

"That no newspaper enter in a year-long contract for advertising at fixed rate, but make rate adjustable monthly or quarterly."

"That the A. N. P. A. send out a standard form of adjustable contracts for advertising."

"That the paper committee strongly discourage the hoarding of print paper."

"That the White Paper Committee and the Legislative Committee of the A. N. P. A. urge the enactment of such legislation as will permit the development of water power that our timber lands may be made fully available for the manufacture of wood pulp, lumber and paper, and we also recommend that Congress be urged to take steps that will induce the Canadian Government to repeal the order in Council prohibiting the export of wood cut from crown lands."

"Cconciliation Committee We recommend that the President appoint a Committee on Conciliation for the purpose of adjusting differences between publishers and competitive territories, that the members of this committee be selected with the view of covering the entire country. That this committee formulate such plans and recommendations as will assist in adjusting existing differences between publishers and competitive territories within that area."

"It is further recommended that this committee keep the Print Paper Committee of the A. N. P. A. informed as to its problems and accomplishments, that the entire membership of the A. N. P. A. co-operate with this committee to the end that it may result in the greatest benefit to all most vitally concerned."

The Committee on Resolutions consisted of M. B. Johnson of the Philadelphia Record; Fleming Newbold, of the Washington Star; D. D. Moore, of the Pittsburgh Leader; Victor Polachek, of the New York Sun; E. H. Butler, of the Buffalo News; E. H. Westphal, of the Boston American; and S. G. McClure, of Youngstown, O.

Huns Cut Cable Off N. Y. in Spring of 1918

New York, Nov. 13.—Two German submarines cut the cable between this country and England just outside New York harbor in the spring of 1918, but the break was spliced by a small corps of experts within twelve hours.

This fact was made known yesterday for the first time by Colonel J. J. Carty, vice-president of the American Telephone and Telegraph Company, in an address at a luncheon of the New York Electrical League.

A cable extending from New York to South America was cut at the same time and was repaired as quickly. According to Colonel Carty Germany evidently was discouraged by her failure to interrupt communications and the exploit was never repeated.
