Has Found Happiness After 22 Years Of Suffering

Says the Man-Heil Helped to Reduce the H. C. of L. and wants to see one in every home.

Wishing to help others, Mrs. H. M. Draucher of 623 North Second Street, Harrisburg, Pa., relates her experience in an interesting letter.

"I can truly say that I have gotten wonderful relief from the Man-Heil Automatic Inhaler used for Hay Fever and Asthma. Have been able to attend picture shows on the hottest nights and could go out in all kinds of weather; something I could not do in former years. Have spent money for everything, answered all advertisements but got no relief from anything until the Man-Heil Inhaler was advertised by the Gorgas Drug Store, of Harrisburg. Since using Inhaler have been able to sleep well, where in former years got no rest and could not get my breath. Had to be under the influence of hypodermic injections most of the time during Hay Fever period, this reduced my vitality and left me very weak and any rest gotten was unnatural. We have two children and Mr. Draucher claims the benefit derived from the Man-Heil Inhaler has been of great financial assistance in battling with the H. C. of L., etc., by enabling the mother of the home to be on the job as well as bringing us greater happiness, for we feel that we have at last found relief after 22 years of severe suffering. I want to help others and this letter can be published so the Man-Heil Inhaler will be in many homes. Sincerely yours, Mrs. H. M. Draucher."

The merit of this remarkable discovery is being proven daily in hundreds of cases of Catarrh, Asthma, Lung Trouble and other diseases of the Air Passages. Persons that have suffered almost constantly for twenty-five and thirty years and who have tried everything else, claim the Man-Heil is the only remedy that gave them relief. The Man-Heil Automatic Inhaler is sold by George A. Gorgas Drug Stores with the understanding that if not satisfactory your money will be refunded.

EDUCATION TO BE ANALYZED

All Phases, Including Americanization and Citizenship, Will Be Under Experts

Dr. Thomas E. Finegan, State Superintendent of Public Instruction, to-day announced details of the plan for the educational congress for Pennsylvania to begin here next Monday night, stating that there would be at least three general evening meetings and a series of small conferences on Tuesday and the three succeeding days.

A total of 45 cases, two of which were continued from October, is listed for hearing by the State Board of Pardons next Wednesday, it being the largest calendar in months. Nine of the cases are applications for re-hearings. Sixteen of the cases involve homicide of various degrees.

The board has also dismissed the appeal of Yard vs. Potts Run Coal Company.

Auditor General Charles A. Snyder has been visiting in Philadelphia.

Representatives of the mining industry of Pennsylvania will be called into conference before very long by Chief Seward E. Button, of the State Department of Mines, to consider use of storage battery locomotives in the mines where gas prevails.

Almost 25,000 persons were directed to positions during the month of October by the State employment agencies, according to a summary of office reports from the 13 agencies announced to-day.

There were 18,518 male civilians placed in employment out of 23,624 applicants. Of 1,432 women applying for jobs, 1,067 obtained work.

The highest record of placement for soldiers for the month was in the Arch street office in Philadelphia with 1,978, Pittsburgh second with 719.

Wholesale Price of Beet Sugar Is Fixed at 10 1/2 Cents

Washington, Nov. 15.—A maximum wholesale price of 10 1/2 cents a pound for all beet sugars at all points in the United States was established by the Department of Justice.

This price was fixed yesterday at a lengthy conference between Howard Figg special assistant to the Attorney General, in charge of food prices, and representatives of the leading beet sugar refiners, who had sought an increase over the present price on the grounds that they could not make a reasonable profit.

Previously beet sugar prices ranged from 10 cents a pound in most sections to 10 1/2 cents.

It was said that a general order would be issued within a week which would "settle the sugar prices and avoid further misunderstandings."

Flag of the Irish Republic Removed From Valera's Auto

Portland, Ore., Nov. 15.—A flag of the Irish Republic was removed from the automobile of Eamonn De Valera, leader of the Irish Independence party here yesterday by request of a party of former service men headed by Ensign A. T. Kurtz.

London Papers Declare Johnson "Good Sport"

London, Nov. 15.—William E. ("Boss") Johnson, the American prohibitionist, whose campaign in England was rudely interrupted Thursday by a band of students, yesterday, as a result of his attitude toward the adventure, was one of the most talked-of and popular figures of the day.

Mr. Johnson could not have desired better advertisement than Thursday's incident for his campaign against the liquor traffic, and his future public appearances likely will command attention by reason of the fact that he has announced himself as considering the hazing he underwent a good joke.

First Conviction For Sugar Profiteering

New York, Nov. 15.—The first sugar profiteering conviction in this Federal district was secured yesterday. Julius and Charles Roth, commission merchants, were found guilty by a jury of selling at 2 3/4 cents a pound sugar purchased at 2 1/2 cents a pound. Federal Judge Knox, before whom the case was tried, intimated that he would send the men to prison.

Allied Policy Toward Russia Unchanged

Paris, Nov. 15.—The allied policy concerning Russia remains unchanged. Following the return of Stephen Pichon, the Foreign Minister, from London, it was said that the Russian Governments which are leading the first against Bolshevism are sufficiently supplied with money, ammunition and food for several months. Neither France nor Great Britain, it was declared, would make any further sacrifices, but, on the other hand, neither of them would open negotiations of any nature tending to strengthen Bolshevism.
