### Negroes Who Escaped Mob Recaptured, Is Report; One Lynched

Moberly, Mo., Nov. 17.—A negro, one of four said to have been beaten and robbed Edward Thompson, a farmer, Thursday night, was lynched here yesterday by a mob of 100 masked men. The negro's three companions escaped after they had been taken from the jail at Macon early yesterday and brought to Moberly secretly. Later it was reported two had been captured and were in custody at a point unknown to the mob.

Saturday night large numbers of farmers congregated on the streets here, and, fearing mob violence, Sheriff Owens took the four negroes to Macon county. Learning of this, the mob motored there and demanded that Sheriff Jesse Stumpor turn over the negroes to them. The sheriff pleaded with the men, but the jail keys were taken forcibly from him and the blacks were returned here just before daybreak, clad only in their night clothes. A large fire had been built in a public park, and sight of it produced a noisy demonstration among the negroes. A rope was placed over the head of one of them and swung over a limb of a tree. The mob pulled and the limb broke. The negro started running as he fell. Four guns flashed and he was killed instantly.

### Milk Drivers Find Consumers Strike After They Win Walkout

New York, Nov. 17.—Milk drivers, whose recent threat of a strike won them an increase of pay and sent milk up, found a "consumers strike" in progress in many parts of New York this morning when they made their early morning deliveries. Hanging on doors of many homes and apartments were signs reading "milk strike, no milk wanted here until Thursday."

The strike was called by the Community Councils of National Defense and "strikers" who observe the recommendations of the Council will abstain from the use of milk on Mondays, Tuesdays and Wednesdays of every week until the price of that commodity is lowered. The strike call however does not affect persons under four years of age, who are privileged to drink milk without incurring the penalty of the "union." Producers and distributors of milk have protested against the "strike" asserting that it is made effective the result will be that many producers will be obliged to go out of business, thus decreasing the milk supply. Health Commissioner Cope land, also has protested against abstention from the use of milk pre-

dicting such a course would impair the health of the community.

## Thanksgiving --- And Then Christmas

—and we all know how speedily Christmas approaches. The store is more than ready to supply your needs for Thanksgiving and the gift season. Shopping for Christmas has begun in earnest, and we are pleased that so many persons are following the well-meant advice to shop early this year.

Delay may mean bitter disappointment, for while stocks are complete now there are no duplicates to fall back on as in former years. Production is far from normal—please remember.

Delay may mean the necessity for makeshift selection—it may mean the discomfort of rush and crush, jam and crowd.

Shop early is the slogan this year.
