Jack of police protection, Burgess Jor. Walter L. Dietz to-day said he will go before the new council to urge the employment of an officer to patrol the borough.

The burgess said many complaints had been made during the past year from residents who said they have been "short measured" by hucksters and salesmen and that their windows were broken by children throwing stones. There were reports of other misconduct.

Burgess Dietz said: "The children of the borough carry on this rowdyism continually without being molested. I have been having many that children coming home from school throw stones at each other and sometimes residents complain of window panes broken by children. Furthermore, motorists take advantage of the lax laws here and use the main thoroughfares as a speed-Furthermore, motorists take advantage of the lax laws here and use the main thoroughfares as a speedway, caring little whether they drive on the right or left side of the street. Complaints come to me occasonally about boys using the pavements for bicycles, endangering pedestrians. The air rifle is causing quiet a little trouble also. Many housewives are compaining about being short measured from wagons on the street, many of these sales-

nousewives are compaining about being short measured from wagons on the street, many of these salesmen are going about town without licenses, but I am helpless to put an end to it because I have no one to look up these conditions.

"I went before council when assuming my duties as burgess, but they said that with these conditions growing worse daily the demand is greater and should be met in some way by the council. I feel that if a policeman would be employed to patrol the streets of the barough between the hours of 4 and 11 p. m. we could assure residents proper protection. Some business men are backing me in a more for protection and I am going to urge council to provide it."
