## A Domestic Science Fireless Cooker

For Christmas

A gift of this kind would, no doubt, be highly appreciated by any woman for her home and prove a great factor toward economy in fuel and food.

Picture yourself preparing food the way you like it best, and when you have this done, a Fairy cook appears, who says: "Now leave all the rest to me. I will

attend to the food while it is cooking. I will see to it that it is cooked the way you want it—roasted, baked, steamed, stewed or boiled perfectly. You will not have to come into the kitchen once to baste, turn or stir the food. You will not have to worry for fear that it will scorch, burn, dry up or overcook. Your time is your own, you can do with it as you please, and when the family is ready to eat, there will be ready to serve the most delicious food that has ever been brought to your table.

A Domestic Science Fireless Cookstove is the realization of all this.

Sold on the Bowman Club Plan.
